The application indicates that the Property is not the subject of any other current application under the *Planning Act*.

PUBLIC HEARING:

At the outset of the Hearing on September 21, 2022, the Committee called the application forward to consider an adjournment request for the Applicant to apply for a concurrent Minor Variance application. The Committee heard from Margot Linker, of the City's Planning, Real Estate and Economic Development Department, who confirmed that the semi-detached dwelling is not in compliance with the Zoning By-law with respect to the front yard setback. She further confirmed that the department has no concerns with the consent application as filed. The Committee also heard from Mario Staltaris, Agent for the Applicant, who confirmed that an application for the reduced front yard setback would be submitted imminently. Mr. Staltaris requested that the consent application be heard as scheduled. After further discussion, the Committee agreed to adjourn the application to be heard concurrently with the Minor Variance application. With the concurrence of all parties the application was adjourned *sine die*.

At the renewed Hearing on October 19, 2022, the Panel Chair administered an oath to Mr. Staltaris, who confirmed that the statutory notice posting requirements were satisfied.

Craig Hamilton of the City's Planning, Real Estate and Economic Development Department was also in attendance, who confirmed the City had no concerns with the application.

DECISION AND REASONS OF THE COMMITTEE: APPLICATION GRANTED

The Committee considered any written and oral submissions relating to the application in making its Decision.

Under the *Planning Act*, the Committee has the power to grant a consent if it is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Also, the Committee must be satisfied that an application is consistent with the Provincial Policy Statement and has regard for matters of provincial interest under section 2 of the Act, as well as the following criteria set out in subsection 51(24):

Criteria

(24) In considering a draft plan of subdivision, regard shall be had, among other matters, to the health, safety, convenience, accessibility for persons with disabilities and welfare of the present and future inhabitants of the municipality and to,

(a) the effect of development of the proposed subdivision on matters of provincial interest as referred to in section 2;

(b) whether the proposed subdivision is premature or in the public interest;

- (c) whether the plan conforms to the official plan and adjacent plans of subdivision, if any;
- (d) the suitability of the land for the purposes for which it is to be subdivided;
- (d.1) if any affordable housing units are being proposed, the suitability of the proposed units for affordable housing;
- (e) the number, width, location and proposed grades and elevations of highways, and the adequacy of them, and the highways linking the highways in the proposed subdivision with the established highway system in the vicinity and the adequacy of them;
- (f) the dimensions and shapes of the proposed lots;
- (g) the restrictions or proposed restrictions, if any, on the land proposed to be subdivided or the buildings and structures proposed to be erected on it and the restrictions, if any, on adjoining land;
- (h) conservation of natural resources and flood control;
- (i) the adequacy of utilities and municipal services;
- (j) the adequacy of school sites;
- (k) the area of land, if any, within the proposed subdivision that, exclusive of highways, is to be conveyed or dedicated for public purposes;
- (l) the extent to which the plan's design optimizes the available supply, means of supplying, efficient use and conservation of energy; and
- (m) the interrelationship between the design of the proposed plan of subdivision and site plan control matters relating to any development on the land, if the land is also located within a site plan control area designated under subsection 41 (2) of this Act or subsection 114 (2) of the *City of Toronto Act, 2006*. 1994, c. 23, s. 30; 2001, c. 32, s. 31 (2); 2006, c. 23, s. 22 (3, 4); 2016, c. 25, Sched. 4, s. 8 (2).

The Committee notes that the City's Planning Report raises "no concerns" regarding the applications. Based on the evidence, the Committee is satisfied that the proposal is consistent with the Provincial Policy Statement that promotes efficient land use and development as well as intensification and redevelopment within built-up areas, based on local conditions. The Committee is also satisfied that the proposal has adequate regard to matters of provincial interest, including the orderly development of safe and healthy communities; the appropriate location of growth and development; and the

protection of public health and safety. Additionally, the Committee is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Moreover, the Committee is satisfied that the proposal has adequate regard for the criteria specified under subsection 51(24) of the Planning Act and is in the public interest.

The Committee therefore grants the provisional consent, subject to the following conditions, **which must be fulfilled within a two-year period from the date of this Decision:**

1. That the Owner(s) provide evidence that the accompanying Minor Variance Application (D08-01-22/A-00279) have been approved, with all levels of appeal exhausted.
2. That the Owner(s) provide evidence that payment has been made to the City of Ottawa for cash-in-lieu of the conveyance of land for park or other public recreational purposes, plus applicable appraisal costs. The value of land otherwise required to be conveyed shall be determined by the City of Ottawa in accordance with the provisions of By-Law No. 2009-95, as amended.
3. That the Owner(s) provide evidence to the satisfaction of the Chief Building Official, or designate, that the party wall meets the Ontario Building Code, O Reg. 332/12 as amended, which requires a 1-hour fire separation from the basement through to the underside of the roof. Verification from the Building Inspector is required. If necessary, a building permit shall be obtained from Building Code Services for any required alterations.
4. The Owner/Applicant(s) shall prepare and submit a tree planting plan, prepared to the satisfaction of the Development Review Manager of the relevant Branch within the Planning, Real Estate and Economic Development Department, or his/her designate, showing the location of one new 50mm tree to be planted on each lot following construction, to enhance the urban tree canopy and streetscape.
5. That the Owner(s) file with the Committee a copy of the registered Reference Plan prepared by an Ontario Land Surveyor registered in the Province of Ontario, and signed by the Registrar, **confirming the frontage and area of the severed land. If the Registered Plan does not indicate the lot area, a letter from the Surveyor confirming the area is required.** The Registered Reference Plan must conform substantially to the Draft Reference Plan filed with the Application for Consent.
6. That upon completion of the above conditions, and **within the two-year period outlined above**, the Owner(s) file with the Committee, the “electronic registration in preparation documents” for the Conveyance for which the Consent is required.

The Consent lapses two years from the date of this Decision.

All technical studies must be submitted to Planning, Real Estate and Economic Development Department a minimum of **40 working days** prior to lapsing date of the consent. Should a Development Agreement be required, such request should be initiated **15 working days** prior to lapsing date of the consent and should include all required documentation including the approved technical studies.

Please note that if a major change to a condition or conditions is requested, you will be entitled to receive Notice of the changes only if you have made a written request to be notified.
