

010 - OPLB CEO Reporting and Board Monitoring

Background and Principles

In keeping with the Board's utilization of a policy or strategy model of governance, the Board requires the CEO to report on a variety of subjects so that the Board may effectively perform its monitoring role.

Some of the fundamental principles to be used in reporting and monitoring include that:

- The Board may request and obtain any information regarding the OPL from the CEO that it considers important to fulfilling its role and duties;
- The Board, working with the CEO, will define the type, format, and timing of information it should receive and will provide ongoing feedback on any adjustments or modifications that should be made for future reports;
- The CEO will advise the Board of the effort, time, and estimated cost of providing requested information so that the Board may determine if the effort is warranted;
- Information provided by the CEO should be timely, concise, complete, transparent, and accurate; and,
- The ~~Board~~ Chair shall schedule the review of monitoring information in its calendar of meetings to provide sufficient time for the CEO to prepare and deliver the reports.

Performance Monitoring

The Board shall work with the CEO to establish the metrics and indicators that shall be utilized to monitor performance. In principle, the metrics and indicators report should:

- Draw from the longer-term goals and objectives established in ~~the~~ OPL's Strategic Directions and Priorities;
- Include key objectives set in the annual Corporate Work Plan and budget;
- Provide information on financial results, service quality, and other performance dimensions as appropriate to provide a balanced perspective on the performance of the organization;
- Focus on results rather than process or activities; and,
- Provide an opportunity for management to explain the results and identify any corrective action plans that will be implemented as appropriate.

Details on annual objectives for the OPL and performance objectives for the CEO are documented in other policies.
