## **DECISION AND REASONS OF THE COMMITTEE: APPLICATIONS GRANTED**

### **Applications Must Satisfy Statutory Tests**

- [8] Under the *Planning Act*, the Committee has the power to grant a consent if it is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Also, the Committee must be satisfied that an application is consistent with the Provincial Policy Statement and has regard for matters of provincial interest under section 2 of the Act, as well as the following criteria set out in subsection 51(24):

#### **Criteria**

(24) In considering a draft plan of subdivision, regard shall be had, among other matters, to the health, safety, convenience, accessibility for persons with disabilities and welfare of the present and future inhabitants of the municipality and to,

(a) the effect of development of the proposed subdivision on matters of provincial interest as referred to in section 2;

(b) whether the proposed subdivision is premature or in the public interest;

(c) whether the plan conforms to the official plan and adjacent plans of subdivision, if any;

(d) the suitability of the land for the purposes for which it is to be subdivided;

(d.1) if any affordable housing units are being proposed, the suitability of the proposed units for affordable housing;

(e) the number, width, location and proposed grades and elevations of highways, and the adequacy of them, and the highways linking the highways in the proposed subdivision with the established highway system in the vicinity and the adequacy of them;

(f) the dimensions and shapes of the proposed lots;

(g) the restrictions or proposed restrictions, if any, on the land proposed to be subdivided or the buildings and structures proposed to be erected on it and the restrictions, if any, on adjoining land;

(h) conservation of natural resources and flood control;

(i) the adequacy of utilities and municipal services;

(j) the adequacy of school sites;

(k) the area of land, if any, within the proposed subdivision that, exclusive of highways, is to be conveyed or dedicated for public purposes;

(l) the extent to which the plan's design optimizes the available supply, means of supplying, efficient use and conservation of energy; and

(m) the interrelationship between the design of the proposed plan of subdivision and site plan control matters relating to any development on the land, if the land is also located within a site plan control area designated under subsection 41 (2) of this Act or subsection 114 (2) of the *City of Toronto Act, 2006*. 1994, c. 23, s. 30; 2001, c. 32, s. 31 (2); 2006, c. 23, s. 22 (3, 4); 2016, c. 25, Sched. 4, s. 8 (2).

### **Evidence**

[9] Evidence considered by the Committee included any oral submissions made at the hearing, as highlighted above, and the following written submissions held on file with the Secretary-Treasurer and available from the Committee Coordinator upon request:

- Application and supporting documents including, a planning rationale, plans, lot fabric evidence, site photos, tree information, and a petition of support signed by the owners of eight nearby properties
- City Planning Report received April 14, 2023, with no concerns
- Rideau Valley Conservation Authority email dated April 17, 2023, with no objections

- Hydro Ottawa email dated April 13, 2023, with no comments

### **Effect of Submissions on Decision**

- [10] The Committee considered all written and oral submissions relating to the application in making its decision and granted the applications.
- [11] The Committee notes that the City's Planning Report raises "no concerns" regarding the applications.
- [12] Based on the evidence, the majority of the Committee (Member C. White dissenting for the reasons noted below) is satisfied that the proposal is consistent with the Provincial Policy Statement that promotes efficient land use and development as well as intensification and redevelopment within built-up areas, based on local conditions. The majority of the Committee is also satisfied that the proposal has adequate regard to matters of provincial interest, including the orderly development of safe and healthy communities; the appropriate location of growth and development; and the protection of public health and safety. Additionally, the majority of the Committee is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Moreover, the majority of the Committee is satisfied that the proposal has adequate regard for the criteria specified under subsection 51(24) of the *Planning Act* and is in the public interest.
- [13] *Member C. White dissents, finding that the existing municipal stormwater management services in the community are inadequate to support the proposed development.*
- [14] THE COMMITTEE OF ADJUSTMENT therefore grants the provisional consent, subject to the following conditions, **which must be fulfilled within a two-year period from the date of this Decision**:
1. That the Owner(s) provide evidence that the accompanying Minor Variance Applications (D08-02-23/A-00068 & D08-02-23/A-00069) have been approved, with all levels of appeal exhausted.
  2. That the Owner(s) grant to Hydro Ottawa without cost, such easements as may be required, the consent to the registration of which is hereby granted.
  3. That the Owner(s) provide evidence that payment has been made to the City of Ottawa for cash-in-lieu of the conveyance of land for park or other public recreational purposes, plus applicable appraisal costs. The value of land otherwise required to be conveyed shall be determined by the City of Ottawa in accordance with the provisions of By-Law No. 2022-280. Information regarding the appraisal process can be obtained by contacting the Planner.

4. The Owner shall enter into an Agreement with the City, through a Development Agreement or Letter of Undertaking, at the expense of the Owner(s) and to the satisfaction of the **Development Review Manager of the relevant Branch within Planning, Real Estate and Economic Development Department, or his/her designate**, agreeing to prepare and implement the tree planting plan and to provide securities in the amount of \$400 per tree for a period of 1 year from the issuance of the final occupancy permit. Compensation for any trees which cannot be planted on site will be paid to Forestry Services with the tree permit application. The Owner agrees that the security shall be returned to the original payee only upon the City having received a report from an arborist or appropriate professional confirming that all replacement trees are in good health; any of the replacement trees which have died or are in poor condition must be replaced.
5. That the Owner(s) provide proof to the satisfaction of the **Development Review Manager of the West Branch within Planning, Infrastructure and Economic Development Department, or his/her designate**, to be confirmed in writing from the Department to the Committee, that the existing dwelling has been removed, that the existing sewer services are capped at the sewer and that the existing water service is blanked at the watermain.
6. That the Owner(s) provide evidence (servicing plan), to the satisfaction of the **Development Review Manager of the West Branch within Planning, Real Estate and Economic Development Department, or his/her designate**, to be confirmed in writing from the Department to the Committee, that both the severed and retained parcels have their own independent water, sanitary and sewer connection, as appropriate, and that these services do not cross the proposed severance line and are connected directly to City infrastructure. If they do cross the proposed severance line, or they are not independent, the Owner(s) will be required to relocate or construct new services from the city sewers and/or watermain at his/her own costs.
7. That the Owner(s) provide evidence to the satisfaction of the **Development Review Manager of the West Branch within Planning, Real Estate and Economic Development Department, or his/her designate**, to be confirmed in writing from the Department to the Committee, that the accessory structure has been demolished in accordance with the demolition permit or relocated in conformity with the Zoning By-law.
8. That the Owner(s) enter into a Development Agreement with the City, at the expense of the Owner(s) and to the satisfaction of West Manager of the West Branch within **Planning, Real Estate and Economic Development Department, or his/her designate**, to require that an asphalt overlay will be installed, at the Owner(s) expense, on Oakridge Boulevard, fronting the subject lands, over the entire public driving surface area within the limits of the overlay, if the approved Site Servicing Plan shows three or more cuts within the pavement surface. The overlay must be carried out to the satisfaction of West Manager of

the West Branch within Planning, Real Estate and Economic Development Department, or his/her designate. The Committee requires a copy of the Agreement and written confirmation from City Legal Services that it has been registered on title. If the West Manager of the West Branch within Planning, Real Estate and Economic Development Department, or his/her designate determines that a Development Agreement requiring an asphalt overlay is no longer necessary, this condition shall be deemed as fulfilled.

9. That the Owner(s) submit a Stormwater Management Brief prepared by a Professional Civil Engineer licensed in the Province of Ontario, for approval by the **Manager of Development Review Branch within Planning, Real Estate and Economic Development Department, or his/her designate**, to be confirmed in writing from the Department to the Committee, demonstrating a design for post-development stormwater peak flows that are controlled to pre-development peak flows for all stormwater events up to and including the 100 year storm event.

The Owner(s) acknowledges and agrees to enter into a Development Agreement with the City to construct the required stormwater system, including posting required securities. A copy of the Agreement and written confirmation from City Legal Services that it has been registered on title, shall be forwarded to the Committee of Adjustment.

If applicable, the Owner(s) shall obtain an Environmental Compliance Approval from the Ontario Ministry of Environment, Conservation and Parks.

The Owner(s) acknowledges and agrees that should the stormwater management system cross property lines or access to the system be over multiple properties, that the owner shall obtain approval of the Committee to grant easement(s) for access and maintenance of the stormwater system or register a Joint Use and Maintenance Agreement on title of the properties, all at the owner(s) costs.

10. That the Owner(s) file with the Committee a copy of the registered Reference Plan prepared by an Ontario Land Surveyor registered in the Province of Ontario, and signed by the Registrar, **confirming the frontage and area of the severed land. If the Registered Plan does not indicate the lot area, a letter from the Surveyor confirming the area is required.** The Registered Reference Plan must conform substantially to the Draft Reference Plan filed with the Application for Consent.
11. That upon completion of the above conditions, and **within the two-year period outlined above**, the Owner(s) file with the Committee, the “electronic registration in preparation documents” for the Conveyances for which the Consent is required.
