

Committee of Adjustment-Consent Application

Mrs. Jacqueline Boselli and her husband Giuliano Boselli, have interest in severing their property because they have reached a time in their life that age matters. Both in their 80's, they wish to continue to have a good quality of life and as Giuliano Indicated: "We are old people but if something happens to us, we know that our Children will be able to sell the house which will offer support to the surviving spouse". The balance of the vacant land will be held by their children. This is their wish and Hope that a severance will be granted.
