REQUESTED VARIANCES

- [2] The Owners/Applicants require the Committee's authorization for minor variances from the Zoning By-law as follows:

 - b. To permit a reduced total interior side yard setback of 1.4 metres, with the north side being 0.91 metres and the south side being 0.48, whereas the By-law requires a minimum total interior side yard setback of 3.6 metres, with one yard no less than 1.2 metres.
 - c. To permit a reduced rear yard setback of 12.62 metres, whereas the By-law requires a minimum rear yard setback of 30% of the lot depth, in this case 13.21 metres.

PUBLIC HEARING

Oral Submissions Summary

- [4] Sam Cox, Agent for the Applicant, and City Planner Basma Alkhatib were present.

DECISION AND REASONS OF THE COMMITTEE: APPLICATION GRANTED

Application Must Satisfy Statutory Four-Part Test

- [5] The Committee has the power to authorize a minor variance from the provisions of the Zoning By-law if, in its opinion, the application meets all four requirements under subsection 45(1) of the *Planning Act*. It requires consideration of whether the variance is minor, is desirable for the appropriate development or use of the land, building or structure, and whether the general intent and purpose of the Official Plan and the Zoning By-law are maintained.

Evidence

- [6] Evidence considered by the Committee included any oral submissions made at the hearing, as highlighted above, and the following written submissions held on file with the Secretary-Treasurer and available from the Committee Coordinator upon request:
- Application and supporting documents, including cover letter, plans, tree information report, a photo of the posted sign, and a sign posting declaration.
 - City Planning Report received October 12, 2023, with no concerns.
 - Rideau Valley Conservation Authority email dated October 12, 2023, with no objections.
 - Hydro Ottawa email dated October 5, 2023, with no concerns.

Effect of Submissions on Decision

- [7] The Committee considered all written and oral submissions relating to the application in making its decision and granted the application.
- [8] Based on the evidence, the Committee is satisfied that the requested variances meet all four requirements under subsection 45(1) of the *Planning Act*.
- [9] The Committee notes that the City's Planning Report raises "no concerns" regarding the application. The report highlights that the reduced rear yard setback

is “minor and has minimal impact on the surrounding context.” The report also notes that “the new alteration to the existing garage will not cause unwanted impacts on the street and will not affect the street look nor the public realm.”

- [10] The Committee also notes that no evidence was presented that the variances would result in any unacceptable adverse impact on neighbouring properties.
- [11] Considering the circumstances, the Committee finds that because the proposal fits well in the neighbourhood, the requested variances are, from a planning and public interest point of view, desirable for the appropriate development or use of the land, building or structure on the property, and relative to the neighbouring lands.
- [12] The Committee also finds that the requested variances maintain the general intent and purpose of the Official Plan because the proposal respects the character of the neighbourhood.
- [13] In addition, the Committee finds that the requested variances maintain the general intent and purpose of the Zoning By-law because the proposal represents orderly development on the property that is compatible with the surrounding area.
- [14] Moreover, the Committee finds that the requested variances, both individually and cumulatively, are minor because they will not create any unacceptable adverse impact on abutting properties or the neighbourhood in general.
- [15] THE COMMITTEE OF ADJUSTMENT therefore authorizes the requested variances, **subject to** the location and size of the proposed construction being in accordance with the plans filed, Committee of Adjustment date stamped August 30, 2023, as they relate to the requested variances.
