The City of Ottawa Risk Management Office implements Part IV policies, including:

- review of development applications within vulnerable areas made under the *Planning Act*;
- Section 59 internal screening procedures for *Planning Act* and *Building Code Act* applications will be amended following new zoning by-law procedures to be drafted in 2024 in consultation with local Source Protection Regions;
- development of an RMO database to facilitate threats verification and RMP management for existing activities.

Within the Mississippi Valley Source Protection Area, there are 0 established Risk Management Plans for existing significant drinking water threat activities which fall under Part IV policies under the Clean Water Act. Note that in 2023, one previously established fuel RMPs was rescinded because the owner converted to natural gas, and two outstanding fuel threats (no RMP established) were removed as threats because the owner converted to natural gas; rebates were provided through the City's Fuel Tank Incentive Program.
