## **DECISION AND REASONS OF THE COMMITTEE: APPLICATION GRANTED**

### **Application Must Satisfy Statutory Tests**

- [7] Under the *Planning Act*, the Committee has the power to grant a consent if it is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Also, the Committee must be satisfied that an application is consistent with the Provincial Policy Statement and has regard for matters of provincial interest under section 2 of the Act, as well as the following criteria set out in subsection 51(24):

#### **Criteria**

(24) In considering a draft plan of subdivision, regard shall be had, among other matters, to the health, safety, convenience, accessibility for persons with disabilities and welfare of the present and future inhabitants of the municipality and to,

- (a) the effect of development of the proposed subdivision on matters of provincial interest as referred to in section 2;
- (b) whether the proposed subdivision is premature or in the public interest;
- (c) whether the plan conforms to the official plan and adjacent plans of subdivision, if any;
- (d) the suitability of the land for the purposes for which it is to be subdivided;
- (d.1) if any affordable housing units are being proposed, the suitability of the proposed units for affordable housing;
- (e) the number, width, location and proposed grades and elevations of highways, and the adequacy of them, and the highways linking the highways in the proposed subdivision with the established highway system in the vicinity and the adequacy of them;
- (f) the dimensions and shapes of the proposed lots;

(g) the restrictions or proposed restrictions, if any, on the land proposed to be subdivided or the buildings and structures proposed to be erected on it and the restrictions, if any, on adjoining land;

(h) conservation of natural resources and flood control;

(i) the adequacy of utilities and municipal services;

(j) the adequacy of school sites;

(k) the area of land, if any, within the proposed subdivision that, exclusive of highways, is to be conveyed or dedicated for public purposes;

(l) the extent to which the plan's design optimizes the available supply, means of supplying, efficient use and conservation of energy; and

(m) the interrelationship between the design of the proposed plan of subdivision and site plan control matters relating to any development on the land, if the land is also located within a site plan control area designated under subsection 41 (2) of this Act or subsection 114 (2) of the *City of Toronto Act, 2006*. 1994, c. 23, s. 30; 2001, c. 32, s. 31 (2); 2006, c. 23, s. 22 (3, 4); 2016, c. 25, Sched. 4, s. 8 (2).

### **Evidence**

[8] Evidence considered by the Committee included all oral submissions made at the hearing, as highlighted above, and the following written submissions held on file with the Secretary-Treasurer and available from the Committee Coordinator upon request:

- Application and supporting documents, including cover letter, parcel registry, tree information report, plans, a photo of the posted sign, and a sign posting declaration.
- City Planning Report received September 28, 2023, with no concerns.
- Rideau Valley Conservation Authority email dated September 29, 2023, with no objections.
- Hydro One email dated September 28, 2023, with no concerns.
- Ministry of Transportation email dated September 21, 2023, with no concerns.

### **Effect of Submissions on Decision**

[9] The Committee considered all written and oral submissions relating to the application in making its decision and granted the application.

- [10] The Committee notes that the City's Planning Report raises "no concerns" regarding the applications.
- [11] Based on the evidence, the Committee is satisfied that the proposal is consistent with the Provincial Policy Statement that promotes efficient land use and development as well as intensification and redevelopment within built-up areas, based on local conditions. The Committee is also satisfied that the proposal has adequate regard to matters of provincial interest, including the orderly development of safe and healthy communities; the appropriate location of growth and development; and the protection of public health and safety. Additionally, the Committee is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Moreover, the Committee is satisfied that the proposal has adequate regard for the criteria specified under subsection 51(24) of the *Planning Act* and is in the public interest.
- [12] THE COMMITTEE OF ADJUSTMENT therefore grants the provisional consent, subject to the following conditions, **which must be fulfilled within a two-year period from the date of this Decision**:
1. The Owner/Applicant(s) shall prepare and implement a tree planting plan, prepared to the satisfaction of the **Development Review Manager of the relevant Branch within the Planning, Real Estate and Economic Development Department, or his/her designate**, showing the location of one new 50mm tree to be planted on the property frontage or right-of-way of each lot following construction, to enhance the urban tree canopy and streetscape. A paid planting contract or a Letter of Undertaking are acceptable if planting cannot be completed prior to the sale of the property.
  2. That the Owner(s) provide proof to the satisfaction of the **Development Review Manager of the Central Branch within Planning, Real Estate and Economic Development Department, or his/her designate**, to be confirmed in writing from the Department to the Committee, that each existing parcel has its own independent storm, sanitary and water services connected to City infrastructure and that these services do not cross the proposed severance line. If they do cross or are not independent, the Owner(s) will be required to relocate the existing services or construct new services from the City sewers/watermain, at his/her own cost.
  3. That the Owner(s) enter into a Joint Use, Maintenance and Common Elements, at the expense of the Owner(s), setting forth the obligations between the Owner(s) and the proposed future owners.

*The Joint Use, Maintenance and Common Elements Agreement shall set forth the joint use and maintenance of all common elements including, but not limited to, the common party walls, common structural elements such as roof, footings, soffits, foundations, common areas, common driveways, and common landscaping.*

The Owner shall ensure that the Agreement is binding upon all the unit owners and successors in title and shall be to the satisfaction of **Central Manager of the Central Branch within Planning, Real Estate and Economic Development Department, or his/her designate**, and **City Legal Services**. The Committee requires written confirmation that the Agreement is satisfactory to Central Manager of the Central Branch within Planning, Real Estate and Economic Development Department, or his/her designate, and is satisfactory to City Legal Services, as well as a copy of the Agreement and written confirmation from City Legal Services that it has been registered on title.

4. That the Owner(s) shall provide evidence that a grading and drainage plan, prepared by a qualified Civil Engineer licensed in the Province of Ontario, an Ontario Land Surveyor or a Certified Engineering Technologist, has been submitted to the satisfaction of **Central Manager of the Central Branch within Planning, Real Estate and Economic Development Department, or his/her designate** to be confirmed in writing from the Department to the Committee. The grading and drainage plan shall delineate existing and proposed grades for both the severed and retained properties, to the satisfaction of Central Manager of the Central Branch within Planning, Real Estate and Economic Development Department, or his/her designate.
5. That the Owner(s) file with the Committee a copy of the registered Reference Plan prepared by an Ontario Land Surveyor registered in the Province of Ontario, and signed by the Registrar, **confirming the frontage and area of the severed land. If the Registered Plan does not indicate the lot area, a letter from the Surveyor confirming the area is required.** The Registered Reference Plan must conform substantially to the Draft Reference Plan filed with the Application for Consent.
6. That upon completion of the above conditions, and **within the two-year period outlined above**, the Owner(s) file with the Committee, the “electronic registration in preparation documents” for the conveyance for which the consent is required.
