Comité de dérogation

CONSENT & MINOR VARIANCE APPLICATION
COMMENTS TO THE COMMITTEE OF ADJUSTMENT
PANEL 3

PLANNING, REAL ESTATE AND ECONOMIC DEVELOPMENT DEPARTMENT

Site Address: 3160 Carp Road
Legal Description: Part of Lots 11 & 12, Concession 2; Geographic Township of Huntley
File No.: D08-01-24/B-00024-00025 & D08-02-24/A-00029-00030
Report Date: March 27, 2024
Hearing Date: April 02, 2024
Planner: Luke Teeft
Official Plan Designation: Rural Transect, Rural Industrial and Logistics, Carp Road Corridor Special Policy Area
Zoning: RC9

DEPARTMENT COMMENTS

The Planning, Real Estate and Economic Development Department **has no concerns with** the applications.

DISCUSSION AND RATIONALE

Section 53 (12) of the *Planning Act*, R.S.O. 1990, c. P.13, as amended, permits the criteria for the subdivision of land listed in Section 51 (24) to be considered when determining whether provisional consent may be granted by a committee of adjustment. With respect to the criteria listed in Section 51 (24), staff have no concerns with the proposed consent.

Staff have reviewed the subject minor variance application against the “four tests” as outlined in Section 45 (1) of the *Planning Act*, R.S.O. 1990 c. P.13, as amended. Staff are satisfied that the requested minor variance(s) meet(s) the “four tests”.

The requested minor variances recognize the unique circumstances of the severed parcel having a 30cm reserve imposed upon it. The lot otherwise conforms to the requirements of the Zoning By-law for the RC9 zone. The 30cm reserve is being put in place to limit the number of new driveways accessing Carp Road and access will be provided via an easement in favour of the severed parcel. Staff have no concerns with the proposed minor variances and consent applications.

ADDITIONAL COMMENTS

Right of Way Management

- The 30cm reserve means no accesses can be created on Carp Road. There is only the opportunity to establish an entrance with the future road construction at the access easement. Once the Access Easement is established into the road then the Owner shall be required to obtain a private approach permit to construct any driveway/approach.

CONDITIONS

If approved, the Planning, Real Estate and Economic Development Department requests that the Committee of Adjustment impose the following conditions on the applications:

1. That the Owner(s) provide evidence that payment has been made to the City of Ottawa for cash-in-lieu of the conveyance of land for park or other public recreational purposes, plus applicable appraisal costs. The value of land otherwise required to be conveyed shall be determined by the City of Ottawa in accordance with the provisions of By-Law No. 2022-280, as amended. Information regarding the appraisal process can be obtained by contacting the Planner.
2. That the Owner acknowledges and agrees to convey to the City, at no cost to the City, an unencumbered road widening across the complete frontage of the lands, measuring 15 meters from the existing centerline of pavement/the abutting right-of-way along Carp Road, pursuant to Section 50.1(25)(c) of the Planning Act and Schedule C16 of the City's new Official Plan, if required. The exact widening must be determined by legal survey. The Owner shall provide a reference plan for registration, indicating the widening, to the City Surveyor for review and approval prior to its deposit in the Land Registry Office. Such reference plan must be tied to the Horizontal Control Network in accordance with the municipal requirements and guidelines for referencing legal surveys. The Owner(s) must provide to the City Surveyor a copy of the Committee of Adjustment Decision and a draft Reference Plan that sets out the required widening. The Committee requires written confirmation from City Legal Services that the transfer of the widening to the City has been registered. All costs shall be borne by the Owner.
3. That the Owner enter into an Agreement with the City, at the expense of the Owner(s) and to the satisfaction of the **Development Review Manager of the Relevant Branch within Planning, Real Estate and Economic Development Department, or his/her designate**, which provides the following covenants/notices that run with the land and bind future Owner(s) on subsequent transfers:

"The City of Ottawa does not guarantee the quality or quantity of the groundwater. If, at some future date, the quality or the quantity of the groundwater becomes deficient, the City of Ottawa bears no responsibility, financial or otherwise, to provide solutions to the deficiency, such solutions being the sole responsibility of

the homeowner.

“The City of Ottawa has identified that there are potential sensitive marine clays within the area that may require site specific detailed geotechnical engineering solutions to allow for development, the City of Ottawa bears no responsibility, financial or otherwise, to provide solutions to the deficiency, such solutions being the sole responsibility of the homeowner.”

The Committee requires a copy of the Agreement and written confirmation from **City Legal Services** that it has been registered on title.

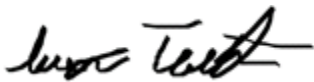

4. That the Owners provide a report, to the satisfaction of the City of Ottawa, demonstrating the adequacy of the aquifer with respect to quality and quantity to support the proposed development, failing which the Owners construct a new well on the severed lot and provide a report, to the satisfaction of the City of Ottawa, to demonstrate the adequacy of the aquifer with respect to quality and quantity to support the proposed development. The report must include a septic impact assessment to evaluate the water quality impact of the on-site septic system on the receiving aquifer.

The Owners' report must demonstrate the following to the City of Ottawa:

- That the construction of any new well on the severed parcel is in accordance with the Ministry of the Environment, Conservation and Parks
- That the quality of the water meets the Ministry of the Environment, Conservation and Parks Regulations, Standards, Guidelines and Objectives;
- That the quantity of water meets all the Ministry of the Environment, Conservation and Parks requirements.
- That the septic impact assessment meets the Ministry of the Environment, Conservation and Parks requirements.

A qualified Professional Engineer or Professional Geoscientist must prepare the report. It is the Owner's responsibility to coordinate the person drilling a new well, if required, and the professional noted herein in order to properly satisfy this condition.

If the accepted report recommends specific mitigation measures or design requirements, the Owners shall enter into a Development Agreement with the City, at the expense of the Owners, which is to be registered on the title of the property, which includes those recommendations. In instances where the subject site has sensitive soils, the drilling of a well or the conveyance of a 30-centimetre reserve may be required. Both the report and any required Development Agreement shall be prepared to the satisfaction of **Development Review Manager of the Rural Branch within Planning, Real Estate and Economic Development Department, or his/her designate.**
