DISCUSSION AND RATIONALE

The application was previously heard on February 6, 2024 and was adjourned at the applicant's request.

Section 53 (12) of the *Planning Act*, R.S.O. 1990, c. P.13, as amended, permits the criteria for the subdivision of land listed in Section 51 (24) to be considered when determining whether provisional consent may be granted by a committee of adjustment. With respect to the criteria listed in Section 51 (24), staff have no concerns with the proposed consent.

These four concurrent applications submitted are for the creation of two new adjacent surplus farm dwelling lots and the creation of a right-of-way shared between said new lots.

The proposed lot is larger than the minimum 0.4 hectare requirement for a surplus farm dwelling severance, though the lot contains a long strip of land for a driveway and land that has not been previously used for agriculture. There is also a hydro line on the north side of the driveway that services the two dwellings.

Staff have no concerns with the application as submitted, subject to the following conditions.

ADDITIONAL COMMENTS

Right of Way Management

- The Right-of-Way Management Department has no concerns with the proposed consent application as there are no requested changes to private approaches. However, the Owner shall be made aware that a private approach permit is required to construct any newly created driveway/approach, or, to remove an existing private approach.

CONDITIONS

If approved, the Planning, Real Estate and Economic Development Department requests that the Committee of Adjustment impose the following conditions on the applications:
