**DECISION AND REASONS OF THE COMMITTEE: APPLICATION GRANTED**

**Application Must Satisfy Statutory Tests**

- [6] Under the *Planning Act*, the Committee has the power to grant a consent if it is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Also, the Committee must be satisfied that an application is consistent with the Provincial Policy Statement and has regard for matters of provincial interest under section 2 of the Act, as well as the following criteria set out in subsection 51(24):

**Criteria**

(24) In considering a draft plan of subdivision, regard shall be had, among other matters, to the health, safety, convenience, accessibility for persons with disabilities and welfare of the present and future inhabitants of the municipality and to,

(a) the effect of development of the proposed subdivision on matters of provincial interest as referred to in section 2;

(b) whether the proposed subdivision is premature or in the public interest;

(c) whether the plan conforms to the official plan and adjacent plans of subdivision, if any;

(d) the suitability of the land for the purposes for which it is to be subdivided;

(d.1) if any affordable housing units are being proposed, the suitability of the proposed units for affordable housing;

(e) the number, width, location and proposed grades and elevations of highways, and the adequacy of them, and the highways linking the highways in the proposed subdivision with the established highway system in the vicinity and the adequacy of them;

(f) the dimensions and shapes of the proposed lots;

(g) the restrictions or proposed restrictions, if any, on the land proposed to be subdivided or the buildings and structures proposed to be erected on it and the restrictions, if any, on adjoining land;

(h) conservation of natural resources and flood control;

- (i) the adequacy of utilities and municipal services;
- (j) the adequacy of school sites;
- (k) the area of land, if any, within the proposed subdivision that, exclusive of highways, is to be conveyed or dedicated for public purposes;
- (l) the extent to which the plan's design optimizes the available supply, means of supplying, efficient use and conservation of energy; and
- (m) the interrelationship between the design of the proposed plan of subdivision and site plan control matters relating to any development on the land, if the land is also located within a site plan control area designated under subsection 41 (2) of this Act or subsection 114 (2) of the *City of Toronto Act, 2006*. 1994, c. 23, s. 30; 2001, c. 32, s. 31 (2); 2006, c. 23, s. 22 (3, 4); 2016, c. 25, Sched. 4, s. 8 (2).

### **Evidence**

- [7] Evidence considered by the Committee included any oral submissions made at the hearing, as highlighted above, and the following written submissions held on file with the Secretary-Treasurer and available from the Committee Coordinator upon request:
- Application and supporting documents, including cover letter, parcel register, plans, tree information, photographs, and sign posting declaration.
  - City Planning Report received June 16, 2023, with no concerns.
  - Rideau Valley Conservation Authority, email dated June 20, 2023, with no objections.
  - Hydro Ottawa, email dated June 14, 2023, with no comments.
  - Ministry of Transportation, email dated June 14, 2023, with no comments.

### **Effect of Submissions on Decision**

- [8] The Committee considered all written and oral submissions relating to the application in making its decision and granted the application.
- [9] The Committee notes that the City's Planning Report raises "no concerns" regarding the applications, highlighting that the proposal is suitable for the land's use and the lots will exceed the minimum width and area requirements of the Zoning By-law.
- [10] Based on the evidence, the Committee is satisfied that the proposal is consistent with the Provincial Policy Statement that promotes efficient land use and

development as well as intensification and redevelopment within built-up areas, based on local conditions. The Committee is also satisfied that the proposal has adequate regard to matters of provincial interest, including the orderly development of safe and healthy communities; the appropriate location of growth and development; and the protection of public health and safety. Additionally, the Committee is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Moreover, the Committee is satisfied that the proposal has adequate regard for the criteria specified under subsection 51(24) of the *Planning Act* and is in the public interest.

[11] THE COMMITTEE OF ADJUSTMENT therefore grants the provisional consent, subject to the following conditions, **which must be fulfilled within a two-year period from the date of this Decision:**

1. That the Owner(s) provide evidence to the satisfaction of both the **Chief Building Official and Development Review Manager, Planning, Real Estate and Economic Development Department, or designates**, that both severed and retained parcels have their own independent water, sanitary and storm connection as appropriate, and that these services do not cross the proposed severance line and are connected directly to City infrastructure. Further, the Owner(s) shall comply to 7.1.5.4(1) of the Ontario Building Code, O. Reg. 332/12 as amended. If necessary, a plumbing permit shall be obtained from Building Code Services for any required alterations.
2. That the Owner(s) enter into a Joint Use, Maintenance and Common Elements at the expense of the Owner(s), setting forth the obligations between the Owner(s) and the proposed future owners.

*The Joint Use, Maintenance and Common Elements Agreement shall set forth the joint use and maintenance of all common elements including, but not limited to, the common party walls, common structural elements such as roof, footings, soffits, foundations, common areas, common driveways, and common landscaping.*

The Owner shall ensure that the Agreement is binding upon all the unit owners and successors in title and shall be to the satisfaction of the **Development review Manager of the Central Branch within Planning, Real Estate and Economic Development Department, or his/her designate**, and City Legal Services. The Committee requires written confirmation that the Agreement is satisfactory to the Development review Manager of the Central Branch within Planning, Real Estate and Economic Development Department, or his/her designate, and is satisfactory to City Legal Services, as well as a copy of the Agreement and written confirmation from City Legal Services that it has been registered on title.

3. That the Owner(s) provide evidence to the satisfaction of the **Chief Building Official, or designate**, that the party wall meets the Ontario Building Code, O

Reg. 332/12 as amended, which requires a 1-hour fire separation from the basement through to the underside of the roof. Verification from the Building Inspector is required. If necessary, a building permit shall be obtained from Building Code Services for any required alterations.

4. That the Owner(s) file with the Committee a copy of the registered Reference Plan prepared by an Ontario Land Surveyor registered in the Province of Ontario, and signed by the Registrar, **confirming the frontage and area of the severed land. If the Registered Plan does not indicate the lot area, a letter from the Surveyor confirming the area is required.** The Registered Reference Plan must conform substantially to the Draft Reference Plan filed with the Application for Consent.
5. That upon completion of the above conditions, and **within the two-year period outlined above**, the Owner(s) file with the Committee, the “electronic registration in preparation documents” for a Conveyance for which the Consent is required.
