

Tracking of Traffic Control Locations for AODA Compliance

Date: 26-Jan-24

Prepared by: Road Safety Unit, Traffic Safety and Mobility Branch, Traffic Services, Public Works Department, City of Ottawa

Important Considerations:

- Pedestrian Accessibility and Intersection Ramping (PAIR) Program funding is subject to Council approval on an annual basis.
- PAIR Program funding will be supplemented with Road Safety Action Plan funding, subject to Council approval, as required on an annual basis.
- Planned year for remediation/construction may change if opportunities for project coordination arise, allowing for early construction.
