REQUESTED VARIANCES

- [2] The Applicants require the Committee’s authorization for a minor variance from the Zoning By-law to permit a front-facing garage, whereas the By-law does not permit a front-facing garage based on the conclusions of a Streetscape Character Analysis.
- [3] The subject property is not the subject of any other current application under the *Planning Act*.

PUBLIC HEARING

Oral Submissions Summary

- [4] Michael Segreto, Agent for the Applicant, and City Planner Penelope Horn were present.
- [5] There were no objections to granting this unopposed application as part of the Panel’s fast-track consent agenda.

DECISION AND REASONS OF THE COMMITTEE: APPLICATION GRANTED

Application Must Satisfy Statutory Four-Part Test

- [6] The Committee has the power to authorize a minor variance from the provisions of the Zoning By-law if, in its opinion, the application meets all four requirements under subsection 45(1) of the *Planning Act*. It requires consideration of whether the variance is minor, is desirable for the appropriate development or use of the land, building or structure, and whether the general intent and purpose of the Official Plan and the Zoning By-law are maintained.

Evidence

- [7] Evidence considered by the Committee included any oral submissions made at the hearing, as highlighted above, and the following written submissions held on file with the Secretary-Treasurer and available from the Committee Coordinator upon request:
- Application and supporting documents, including cover letter, plans, parcel register abstract, tree information report, tree planting plan, streetscape character analysis, photo of the posted sign, and a sign posting declaration.
 - City Planning Report received June 26, 2024, with no concerns.
 - Rideau Valley Conservation Authority email received June 28, 2024, with no objections.
 - Hydro Ottawa email received July 2, 2024, with comments.

Effect of Submissions on Decision

- [8] The Committee considered all written and oral submissions relating to the application in making its decision and granted the application.
- [9] Based on the evidence, the Committee is satisfied that the requested variance meets all four requirements under subsection 45(1) of the *Planning Act*.
- [10] The Committee notes that the City's Planning Report raises "no concerns" regarding the application, highlighting that, "[t]he current dwelling has an attached front-facing garage, so the proposal will not result in a greater number of attached, front-facing garages on the street."
- [11] The Committee also notes that no evidence was presented that the variance would result in any unacceptable adverse impact on neighbouring properties.
- [12] Considering the circumstances, the Committee finds that, because the proposal fits well in the area, the requested variances is, from a planning and public interest

point of view, desirable for the appropriate development or use of the land, building or structure on the property, and relative to the neighbouring lands.

- [13] The Committee also finds that the requested variance maintains the general intent and purpose of the Official Plan because the proposal respects the character of the neighbourhood.
- [14] In addition, the Committee finds that the requested variance maintains the general intent and purpose of the Zoning By-law because the proposal represents orderly development that is compatible with the surrounding area.
- [15] Moreover, the Committee finds that the requested variance, is minor because it will not create any unacceptable adverse impact on abutting properties or the neighbourhood in general.
- [16] THE COMMITTEE OF ADJUSTMENT therefore authorizes the requested variance, **subject to** the location and size of the proposed construction being in accordance with the plans filed, Committee of Adjustment date stamped May 29, 2024, as they relate to the requested variance.
