DEPARTMENT COMMENTS

The Planning, Development and Building Services Department **has concerns with** the application.

DISCUSSION AND RATIONALE

Staff have reviewed the subject minor variance application against the “four tests” as outlined in Section 45 (1) of the *Planning Act*, R.S.O. 1990 c. P.13, as amended. Staff are not satisfied that the requested minor variances meet the “four tests”.

The proposed coach house is significantly larger than what is permitted under the Zoning By-law. The proposed structure exceeds both 40% of the existing dwelling and the 95m² maximum. This zoning provision is to ensure the coach house remains an accessory use. Staff therefore do not believe that the variance can be considered “minor”.

Staff have no concerns with the driveway extension.

ADDITIONAL COMMENTS

- The **Planning, Development and Building Services Department** will do a complete review of grading and servicing during the building permit process.
- At the time of building permit application, a grading/servicing plan prepared by a Professional Engineer, Ontario Land surveyor or a Certified Engineering Technologist may be required.
- The surface storm water runoff including the roof water must be self contained and directed to the City Right-of-Way, not onto abutting private properties as approved by

the **Planning, Development and Building Services Department**.

- A private approach permit is required for any access off of the City street.
- Existing grading and drainage patterns must not be altered.
- Encroachment on or alteration to any easement is not permitted without authorization from easement owner(s).
