CONSENT APPLICATION

COMMENTS TO THE COMMITTEE OF ADJUSTMENT

PANEL 2

PLANNING, DEVELOPMENT AND BUILDING SERVICES DEPARTMENT

Site Address:	1375 Louis Lane
Legal Description:	Part of Lot 26, Concession 2 (Ottawa Front), Geographic Township of Gloucester
File No.:	D08-01-24/B-00123 and D08-01-24/B-00124
Report Date:	August 1, 2024
Hearing Date:	August 6, 2024
Planner:	Samantha Gatchene
Official Plan Designation:	Outer Urban Transect, Neighbourhood Evolving Neighbourhood Overlay
Zoning:	R2N (Residential Second Density Zone, Subzone N)

DEPARTMENT COMMENTS

The Planning, Development and Building Services Department **has no concerns with** the applications.

DISCUSSION AND RATIONALE

Section 53 (12) of the *Planning Act*, R.S.O. 1990, c .P.13, as amended, permits the criteria for the subdivision of land listed in Section 51 (24) to be considered when determining whether provisional consent may be granted by a committee of adjustment. With respect to the criteria listed in Section 51 (24), staff have no concerns with the proposed consent.

The site is zoned R2N and designated Neighbourhood under the Official Plan. The proposed consent aligns with the requirements of the Zoning By-law for lot area and width. Neighbourhoods are intended to evolve through gradual development, of which this application is an example.

ADDITIONAL COMMENTS

Planning Forestry

There are no tree-related impacts associated with the requested severance.

To enhance the streetscape and contribute towards the City's 40% canopy goal, trees

will need to be planted in the right-of-way following construction, in line with the Official Plan's policies to enhance and protect the urban forest canopy through growth and intensification (§ 4.8.2).

Infrastructure Engineering

- The Planning, Development and Building Services Department will do a complete review of grading and servicing during the building permit process.
- At the time of building permit application, a grading/servicing plan prepared by a Professional Engineer, Ontario Land surveyor or a Certified Engineering Technologist will be required.
- Any proposed works to be located within the road allowance requires prior written approval from the Infrastructure Services Department.
- All trees on City property and private trees greater than 30cm in diameter in the inner urban area are protected under the Tree Protection By-law (2020-340), and plans are to be developed to allow for their retention and long-term survival. A Tree Removal Permit and compensation are required for the removal of any protected tree.
- The surface storm water runoff including the roof water must be self contained and directed to the City Right-of-Way, not onto abutting private properties as approved by Planning, Development and Building Services Department.
- Existing grading and drainage patterns must not be altered.
- Existing services are to be blanked at the owner's expense.
- Asphalt overlay would be required if three or more road-cuts proposed on City Right of way. This includes the road cut for blanking of existing services, and any other required utility cuts (ie, gas, hydro, etc.).
- Provide a minimum of 1.5m between the proposed driveway and the utility pole.

Right of Way Management

The Right-of-Way Management Department has no concerns with the proposed Consent Applications, as there are no immediate changes requested to private approaches/driveways. The Owner shall be made aware that a private approach permit is required to construct any new entrance, as well as to close any existing entrance that becomes redundant. Please contact the ROW Department for any additional information at rowadmin@ottawa.ca.

CONDITIONS

If approved, the Planning, Development and Building Services Department requests that the Committee of Adjustment impose the following conditions on the applications:

1. That the Owner(s) provide evidence that payment has been made to the City of Ottawa for cash-in-lieu of the conveyance of land for park or other public recreational purposes, plus applicable appraisal costs. The value of land otherwise required to be conveyed shall be determined by the City of Ottawa in

accordance with the provisions of By-Law No. 2022-280, as amended. Information regarding the appraisal process can be obtained by contacting the Planner.

2. That the Owner/Applicant(s) provide a tree planting plan, prepared to the satisfaction of the Manager of the All Wards Branch within the Planning, Development and Building Services Department, or their designate(s), showing the location(s) and species or ultimate size of at least one new tree (50 mm caliper) per lot, in addition to any compensation trees required under the Tree Protection By-law.
3. That the Owner(s) provide proof to the satisfaction of the Development Review Manager of the Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate, to be confirmed in writing from the Department to the Committee, that the existing dwelling/building has been removed.
4. That the Owner(s) provide evidence to the satisfaction of both the Chief Building Official and Development Review Manager, Planning, Development and Building Services Department, or designates, that both severed and retained parcels have their own independent water, sanitary and storm connection as appropriate, and that these services do not cross the proposed severance line and are connected directly to City infrastructure. Further, the Owner(s) shall comply to 7.1.5.4(1) of the Ontario Building Code, O. Reg. 332/12 as amended. If necessary, a plumbing permit shall be obtained from Building Code Services for any required alterations.
5. That the Owner(s) shall provide evidence that a grading and drainage plan, prepared by a qualified Civil Engineer licensed in the Province of Ontario, an Ontario Land Surveyor or a Certified Engineering Technologist, has been submitted to the satisfaction of Development Review All Wards Manager of the Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate to be confirmed in writing from the Department to the Committee. The grading and drainage plan shall delineate existing and proposed grades for both the severed and retained properties, to the satisfaction of Development Review All Wards Manager of the Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.
6. That the Owner acknowledges and agrees to convey to the City, at no cost to the City, an unencumbered road widening across the complete frontage of the lands, measuring 10 meters from the existing centerline of pavement/the abutting right-of-way along Louis lane, pursuant to Section 50.1(25)(c) of the Planning Act and Schedule C16 of the City's new Official Plan, if required. The exact widening must be determined by legal survey. The Owner shall provide a reference plan for

registration, indicating the widening, to the City Surveyor for review and approval prior to its deposit in the Land Registry Office. Such reference plan must be tied to the Horizontal Control Network in accordance with the municipal requirements and guidelines for referencing legal surveys. The Owner(s) must provide to the City Surveyor a copy of the Committee of Adjustment Decision and a draft Reference Plan that sets out the required widening. The Committee requires written confirmation from City Legal Services that the transfer of the widening to the City has been registered. All costs shall be borne by the Owner.
