Also, the Committee must be satisfied that an application is consistent with the Provincial Policy Statement and has regard for matters of provincial interest under section 2 of the Act, as well as the following criteria set out in subsection 51(24):

Criteria

(24) In considering a draft plan of subdivision, regard shall be had, among other matters, to the health, safety, convenience, accessibility for persons with disabilities and welfare of the present and future inhabitants of the municipality and to,

- a) the effect of development of the proposed subdivision on matters of provincial interest as referred to in section 2;
- b) whether the proposed subdivision is premature or in the public interest;
- c) whether the plan conforms to the official plan and adjacent plans of subdivision, if any;
- d) the suitability of the land for the purposes for which it is to be subdivided;
 - d.1) if any affordable housing units are being proposed, the suitability of the proposed units for affordable housing;
- e) the number, width, location and proposed grades and elevations of highways, and the adequacy of them, and the highways linking the highways in the proposed subdivision with the established highway system in the vicinity and the adequacy of them;
- f) the dimensions and shapes of the proposed lots;
- g) the restrictions or proposed restrictions, if any, on the land proposed to be subdivided or the buildings and structures proposed to be erected on it and the restrictions, if any, on adjoining land;
- h) conservation of natural resources and flood control;

- i) the adequacy of utilities and municipal services;
- j) the adequacy of school sites;
- k) the area of land, if any, within the proposed subdivision that, exclusive of highways, is to be conveyed or dedicated for public purposes;
- l) the extent to which the plan's design optimizes the available supply, means of supplying, efficient use and conservation of energy; and
- m) the interrelationship between the design of the proposed plan of subdivision and site plan control matters relating to any development on the land, if the land is also located within a site plan control area designated under subsection 41 (2) of this Act or subsection 114 (2) of the *City of Toronto Act, 2006*. 1994, c. 23, s. 30; 2001, c. 32, s. 31 (2); 2006, c. 23, s. 22 (3, 4); 2016, c. 25, Sched. 4, s. 8 (2).

Effect of Submissions on Decision

[9] The Committee considered all written and oral submissions relating to the application in making its decision and granted the application.

[10] The Committee notes that the City's Planning Report raises "no concerns" regarding the application subject to the requested conditions agreed to by the Applicant's Agent.

[11] Based on the evidence, the Committee is satisfied that the proposal is consistent with the Provincial Policy Statement that promotes efficient land use and development as well as intensification and redevelopment within built-up areas,

based on local conditions. The Committee is also satisfied that the proposal has adequate regard to matters of provincial interest, including the orderly development of safe and healthy communities; the appropriate location of growth and development; and the protection of public health and safety. Additionally, the Committee is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Moreover, the Committee is satisfied that the proposal has adequate regard for the criteria specified under subsection 51(24) of the *Planning Act* and is in the public interest.

[12] THE COMMITTEE OF ADJUSTMENT therefore grants the provisional consent, subject to the following conditions, **which must be fulfilled within a two-year period from the date of this Decision**:

1. That the Owner(s) prepares and submits an Environmental Impact Study (EIS) to satisfaction of **the Manager of the Development Review All Wards Branch, or their designate**. If the accepted report recommends specific mitigation measures or other requirements, the Owner shall enter into a Development Agreement with the City, at the expense of the Owner(s) and to the satisfaction of the **Manager of the Development Review All Wards Branch, or their designate**, which is to be registered on the title of the property, which includes those recommendations.
2. That the Owner enter into an Agreement with the City, at the expense of the Owner(s) and to the satisfaction of the **Manager of the Development Review All Wards Branch, or their designate**, which provides the following covenant/notice that runs with the land and binds future Owner(s) on subsequent transfers:

“The City of Ottawa does not guarantee the quality or quantity of the groundwater. If, at some future date, the quality or the quantity of the groundwater becomes deficient, the City of Ottawa bears no responsibility, financial or otherwise, to provide solutions to the deficiency, such solutions being the sole responsibility of the homeowner.”

The Committee requires a copy of the Agreement and written confirmation from **City Legal Services** that it has been registered on title.

3. That the Owner(s) file with the Committee a copy of the registered Reference Plan prepared by an Ontario Land Surveyor registered in the Province of Ontario, and signed by the Registrar, **confirming the frontage and area of the severed land. If the Registered Plan does not indicate the lot area, a letter from the Surveyor confirming the area is required.** The Registered Reference Plan must conform substantially to the Draft Reference Plan filed with the Application for Consent.
4. That upon completion of the above conditions, and **within the two-year period outlined above**, the Owner(s) file with the Committee, the “electronic

registration in preparation documents” for the lot line adjustment for which the Consent is required.
