DISCUSSION AND RATIONALE

Section 53 (12) of the *Planning Act*, R.S.O. 1990, c. P.13, as amended, permits the criteria for the subdivision of land listed in Section 51 (24) to be considered when determining whether provisional consent may be granted by a committee of adjustment. With respect to the criteria listed in Section 51 (24), staff have no concerns with the proposed consent.

11 Trump and 13 Trump are zoned Residential Third Density Zone Subzone Q, and the intent of this zone is to allow residential uses to provide additional housing choices and regulating development that is compatible with the existing land use patterns. The proposed applications will sever an existing semi-detached dwelling to allow for individual ownership, which maintains the intent of Zoning By-law. Staff have no concerns with the proposed consent as no alterations are proposed to the existing dwellings.

ADDITIONAL COMMENTS

Planning Forestry

Through pre-consultation, it was confirmed that there are no tree impacts related to the proposed severance. The property owner should consider planting a tree in the rear yard to provide shade to the site.

Right of Way Management

The Right-of-Way Management Department has **no concerns** with the proposed Application. However, the Owner shall be made aware that private approach permits are required to construct or modify any newly created driveway/approaches in the Right-of-way. Please contact the ROW Department for any additional information at rowadmin@ottawa.ca and visit the City webpage [Driveways | City of Ottawa](#) to submit a Private Approach application.
