**DECISION AND REASONS OF THE COMMITTEE: APPLICATION GRANTED
AS AMENDED**

Application Must Satisfy Statutory Four-Part Test

- [9] The Committee has the power to authorize a minor variance from the provisions of the Zoning By-law if, in its opinion, the application meets all four requirements under subsection 45(1) of the *Planning Act*. It requires consideration of whether the variance is minor, is desirable for the appropriate development or use of the land, building or structure, and whether the general intent and purpose of the Official Plan and the Zoning By-law are maintained.

Evidence

- [10] Evidence considered by the Committee included any oral submissions made at the hearing, as highlighted above, and the following written submissions held on file with the Secretary-Treasurer and available from the Committee Coordinator upon request:
- Application and supporting documents, including cover letter, plans, letter from a Zoning Plan Examiner, neighbour consultation letter, photo of the posted sign, and a sign posting declaration.
 - City Planning Report received September 25, 2024, with no concerns.
 - Rideau Valley Conservation Authority email received September 26, 2024, with no objections.
 - Hydro Ottawa email received September 27, 2024, with comments.

Effect of Submissions on Decision

- [11] The Committee considered all written and oral submissions relating to the application in making its decision and granted the application.
- [12] Based on the evidence, the Committee is satisfied that the requested variance meets all four requirements under subsection 45(1) of the *Planning Act*.
- [13] The Committee notes that the City's Planning Report raises "no concerns" regarding the application.
- [14] The Committee also notes that no evidence was presented that the variance would result in any unacceptable adverse impact on neighbouring properties.
- [15] Considering the circumstances, the Committee finds that, because the proposal fits well in the area, the requested variance is, from a planning and public interest point of view, desirable for the appropriate development or use of the land, building or structure on the property, and relative to the neighbouring lands.
- [16] The Committee also finds that the requested variance maintains the general intent and purpose of the Official Plan because the proposal respects the character of the neighbourhood.
- [17] In addition, the Committee finds that the requested variance maintains the general intent and purpose of the Zoning By-law because the proposal represents orderly development that is compatible with the surrounding area.
- [18] Moreover, the Committee finds that the requested variance is minor because it will not create any unacceptable adverse impact on abutting properties or the neighbourhood in general.
- [19] THE COMMITTEE OF ADJUSTMENT therefore authorizes the requested variances, **subject to** the location and size of the proposed construction being in accordance with the site plan filed, Committee of Adjustment date stamped August 27, 2024, as they relate to the requested variances.
