

## Document 2 - Automated Speed Enforcement Existing and Planned 2025 Locations

**Table 1. NEW 2025 LOCATIONS:**

Listed in Table 1. below are new locations where automated speed enforcement (ASE) is proposed for 2025 implementation. All 8 sites have been reviewed and found to meet vendor technical and design specifications, available hydro (preliminary review only), sufficient space for the device and required signage. There may be a possibility that unforeseen underground constraints limit the installation of ASE at any of these sites. Constraints will be confirmed through the circulation process.

Item #	Automated Speed Enforcement Location	Ward	Proximity To / Site Characteristic
