### APPLICANT'S PROPOSAL / PURPOSE OF THE APPLICATION:

The Applicant wants to regularize the existing accessory structures on their property, as shown on the plans filed with the application.

On November 19, 2024, this application was adjourned to allow the Applicant time to revise the requested minor variances. The Applicant has since revised their application.

**REQUESTED VARIANCES:**

The Applicant requires the Committee's authorization for minor variances from the Zoning By-law as follows:

- a) To permit a total of 5 accessory structures on a lot, whereas the By-law permits a maximum of 2 accessory structures.
- b) To permit a reduced setback from the interior (north) side lot line of 0 metres for an accessory structure ("Shed 1"), whereas the By-law requires a minimum setback from the interior side lot line for an accessory structure located in an interior side yard of 1.2 metres.
- c) To permit a reduced distance of 0.3 metres between structures ("Shed" 1 from "Shed 2"), whereas the By-law requires a minimum distance of 1.2 metres between structures on the same lot.
- d) To permit a reduced setback from the interior (north) side lot line of 0 metres for an accessory structure ("Shed 2"), whereas the By-law requires a minimum setback from the interior side lot line for an accessory structure located in a rear yard of 0.6 metres.

- f) To permit a reduced setback from the interior (north) side lot line of 0.5 metres for a hot tub, whereas the By-law requires a minimum setback from the interior side lot line of 0.6 metres for a hot tub not equipped with walkable decking and not contained within a building.
- g) To permit a reduced setback from the interior (north) side lot line of 0.3 metres for an accessory structure ("Shed 3"), whereas the By-law requires a minimum setback from the interior side lot line for an accessory structure located in a rear yard of 0.6 metres.

- j) To permit a reduced setback from the interior (south) side lot line of 1.9 metres for a play structure, whereas the By-law requires a minimum setback from the interior side lot line equal to the height of the play structure, in this case 4 metres.
- k) To permit an increased height of 4 metres for a play structure, whereas the By-law permits a maximum height of 3.6 metres for an accessory structure.

In July 2024, the Ontario Land Tribunal authorized a minor variance to permit a home-based business to occupy an increased percentage of the gross floor area of the principal dwelling. The property is not the subject of any other current application under the *Planning Act*.
