## **PUBLIC HEARING**

### **Oral Submissions Summary**

[4] Peter Hume, agent for the Applicant, provided a slide presentation, a copy of which is on file with the Secretary-Treasurer and available from the Committee Coordinator upon request.

[5] Responding to Panel's questions, Mr. Hume confirmed that the reduced interior side yard setback would allow for the neighbouring tree to be retained. He also advised that, in response to concerns from the Committee, that he would provide a revised site plan, after the hearing, that would remove the third parking space and relocate the bicycle parking.

[6] City Forester Nancy Young and City Planner, Dylan Geldart, both confirmed that the relocation of the bicycle parking would protect the soft landscaping and conform with the Zoning Bylaw.

## **DECISION AND REASONS OF THE COMMITTEE: APPLICATION GRANTED**

### **Application Must Satisfy Statutory Four-Part Test**

[7] The Committee has the power to authorize minor variance from the provisions of the Zoning By-law if, in its opinion, the application meets all four requirements under subsection 45(1) of the Planning Act. It requires consideration of whether the variances are minor, are desirable for the appropriate development or use of the land, building or structure, and whether the general intent and purpose of the Official Plan and the Zoning By-law are maintained.

### **Evidence**

[8] Evidence considered by the Committee included all oral submissions made at the hearing, as highlighted above, and the following written submissions held on file with the Secretary-Treasurer and available from the Committee Coordinator upon request:

- Application and supporting documents, including cover letter, plans, tree information report, photo of the posted sign, and a sign posting declaration.
- City Planning Report received April 10, 2025, with no concerns.

- Rideau Valley Conservation Authority email received April 10, 2025, with no objections.
- Hydro Ottawa email received April 4, 2025, with comments.
- M. Mahler email received April 3, 2025, with comments.

### **Effect of Submissions on Decision**

- [9] The Committee considered all written and oral submissions relating to the application in making its decision and granted the application.
- [10] Based on the evidence, the Committee is satisfied that the requested variances meet all four requirements under subsection 45(1) of the *Planning Act*.
- [11] The Committee notes that the City’s Planning Report raises “no concerns” regarding the application.
- [12] The Committee also notes that no compelling evidence was presented that the variances would result in any unacceptable adverse impact on neighbouring properties.
- [13] Considering the circumstances, the Committee finds that, because the proposal fits well in the area, the requested variances are, from a planning and public interest point of view, desirable for the appropriate development or use of the land, building or structure on the property, and relative to the neighbouring lands.
- [14] The Committee also finds that the requested variances maintain the general intent and purpose of the Official Plan because the proposal respects the character of the neighbourhood.
- [15] In addition, the Committee finds that the requested variances maintain the general intent and purpose of the Zoning By-law because the proposal represents orderly development that is compatible with the surrounding area.
- [16] Moreover, the Committee finds that the requested variances, both individually and cumulatively, are minor because they will not create any unacceptable adverse impact on abutting properties or the neighbourhood in general.
- [17] **THE COMMITTEE OF ADJUSTMENT ORDERS** that the application is granted and the variances to the Zoning By-law are authorized, **subject to** the location and size of the proposed construction being in accordance with the revised site plan filed and Committee of Adjustment date stamped April 17, 2025, and the elevations drawings filed and Committee of Adjustment date-stamped March 18, 2025, as they relate to the requested variances.
