Comité de dérogation

**CONSENT & MINOR VARIANCE APPLICATION
COMMENTS TO THE COMMITTEE OF ADJUSTMENT
PANEL 2**

PLANNING, DEVELOPMENT AND BUILDING SERVICES DEPARTMENT

Site Address: 1679 Grasmere Crescent
Legal Description: Part of Lots 5 and 6, Registered Plan 525
File No.: D08-01-25/B-00071 & D08-01-25/B-00072
D08-02-25/A-00082 & D08-02-25/A-00083
Report Date: May 14, 2025
Hearing Date: May 20, 2025
Planner: Nivethini Jekku Einkaran
Official Plan Designation: Outer Urban Transect, Neighbourhood
Zoning: R2F

DEPARTMENT COMMENTS

The Planning, Development and Building Services Department **has no concerns with** the application(s).

DISCUSSION AND RATIONALE

Section 53 (12) of the *Planning Act*, R.S.O. 1990, c. P.13, as amended, permits the criteria for the subdivision of land listed in Section 51 (24) to be considered when determining whether provisional consent may be granted by a committee of adjustment. With respect to the criteria listed in Section 51 (24), staff have no concerns with the proposed consent.

Staff have reviewed the subject minor variance application against the “four tests” as outlined in Section 45 (1) of the *Planning Act*, R.S.O. 1990 c. P.13, as amended. Staff are satisfied that the requested minor variance(s) meet(s) the “four tests”.

ADDITIONAL COMMENTS

Infrastructure Engineering

- The **Planning, Development and Building Services Department** will do a complete review of grading and servicing during the building permit process.
- At the time of building permit application, a grading/servicing plan prepared by a Professional Engineer, Ontario Land surveyor or a Certified Engineering Technologist will be required.

110 Laurier Avenue West, Ottawa ON K1P 1J1

Visitez-nous : [Ottawa.ca/urbanisme](https://ottawa.ca/urbanisme)

- Any proposed works to be located within the road allowance requires prior written approval from the Infrastructure Services Department.
- The surface storm water runoff including the roof water must be self contained and directed to the City Right-of-Way, not onto abutting private properties as approved by **Planning, Development and Building Services Department**.
- A private approach permit is required for any access off of the City street.
- Existing grading and drainage patterns must not be altered.
- Existing services are to be blanked at the owner's expense.
- Asphalt overlay would be required if three or more road-cuts proposed on City Right of way. This includes the road cut for blanking of existing services, and any other required utility cuts (ie, gas, hydro, etc.).
- Service lateral spacing shall be as specified in City of Ottawa Standard S11.3.
- In accordance with the Sewer Connection By-Law a minimum spacing of 1.0m is required between service laterals and the foundation face.
- **Please note that depending on the grading on this lot, more intense drainage solutions may be required. Depending on the grading & what is proposed, an ECA, easement, or additional JUMA inclusions may be required.**
 - **There may not be enough room to accommodate a rear yard catch basin (CB) as well as servicing for the back-half of the long semi. Without services to the rear half of the semis, the properties may not be further severable in the future (for a total of four lots), as they would not have independent servicing.**

Planning Forestry

The proposed development requires the removal of four protected trees from the site, including one City tree. The applicant should provide an updated Site Plan to minimize impacts to the trees on site, and permit retention of the existing street tree (#7 in the TIR). Revisions to the Tree Planting Plan may be required as a result of any changes.

As is, the proposed tree removals will be subject to the planting of eight replacements, as well as payment for the value of the City tree to be removed (tree 7).

Where trees may be shared or adjacently owned, the owner/applicant must determine ownership and obtain consent for their removal, even if a tree removal permit is not required.

Right of Way Management

The Right-of-Way Management Department has **no concerns** with the proposed Consent Application to sever the property. A Private approach permit is required to construct any newly created or modified driveway/approaches or close redundant approaches so one is required to close the existing entrance and create the new shared

driveway down the middle. Acknowledge there will also be a reciprocal access easements to be provided to provide vehicle access to rear-yard parking.

Please contact the ROW Department for any additional information at rowadmin@ottawa.ca or visit the City webpage [Driveways | City of Ottawa](#) to submit a Private Approach application.

CONDITIONS

If approved, the Planning, Development, and Building Services Department requests that the Committee of Adjustment impose the following condition(s) on the application(s):

1. That the Owner(s) provide evidence that payment has been made to the City of Ottawa for cash-in-lieu of the conveyance of land for park or other public recreational purposes, plus applicable appraisal costs. The value of land otherwise required to be conveyed shall be determined by the City of Ottawa in accordance with the provisions of By-Law No. 2022-280, as amended. Information regarding the appraisal process can be obtained by contacting the Planner.
2. That the Owner(s) provide evidence to the satisfaction of the Chief Building Official, or designate, that the existing dwelling been demolished or relocated under the authority of a building permit.
3. That the Owner/Applicant(s) provide a revised site and grading plan with the locations of proposed elements (buildings, driveways, services, grading, etc.) designed to reduce any excavation within the Critical Root Zones of protected trees and/or to provide sufficient soil volume to plant new trees, to the satisfaction of the Manager of the relevant Branch within the Planning, Development and Building Services Department, or their designate(s). The Tree Information Report must be revised to reflect changes to the site plan and to show accurate tree protection areas and provide specific mitigation measures.
4. That the Owner(s) provide evidence, to the satisfaction of both the Chief Building Official and the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designates, that both severed and retained parcels have their own independent water, sanitary and storm connection as appropriate, that these services do not cross the proposed severance line and are connected directly to City infrastructure. Further, the Owner(s) shall comply to 7.1.5.4(1) of the Ontario Building Code, O. Reg. 332/12 as amended. If necessary, a plumbing permit shall be obtained from Building Code Services for any required alterations.
5. That the Owner(s) enter into a Joint Use and Maintenance Agreement, at the expense of the Owner(s), setting forth the obligations between the Owner(s) and

the proposed future owners with respect to the joint use and maintenance of all common elements including, but not limited to, common areas, common driveways and common landscaping.

The Owner shall ensure that the Agreement is binding upon all unit owners and successors in title and shall be to the satisfaction of Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate, or City Legal Services. The Committee shall be provided written confirmation that the Agreement is satisfactory to the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate, or is satisfactory to City Legal Services, as well as a copy of the Agreement and confirmation that it has been registered on title.

6. The Owner(s) shall:
prepare a Noise Control Study, in compliance with the City of Ottawa Environmental Noise Control Guidelines, to the satisfaction of the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate. The Owner(s) shall enter into an agreement with the City, at the expense of the Owner(s), that requires the Owner(s) to implement any noise control attenuation measures recommended in the approved study. The Agreement shall also deal with any covenants/notices, recommended in the approved study, that shall run with the land and bind future owners on subsequent transfers, warning purchasers and/or tenants of expected noise levels due to the existing source of environmental noise (arterial, highway, airport, etc.). The Committee shall be provided a copy of the Agreement and written confirmation from City Legal Services that it has been registered on title.

or

Design the dwelling units with the provision for adding central air conditioning at the occupant's discretion and enter into an Agreement with the City, at the expense of the Owner, which is to be registered on title to deal with the covenants/ notices that shall run with the land and bind future owners on subsequent transfers, warning purchasers and/or tenants of expected noise levels due to the existing source of environmental noise. The Committee requires a copy of the Agreement and written confirmation from City Legal Services that it has been registered on title. The following two conditions will be included in the above-noted Agreement:

Notices-on-Title respecting noise:

- i) "The Purchaser/Lessee for himself, his heirs, executors, administrators, successors and assigns acknowledges being advised that this dwelling unit has been fitted with a forced air heating system and the ducting, etc. was sized to accommodate central air conditioning. Installation of central air conditioning

by the Purchaser/Lessee will allow windows and exterior doors to remain closed, thereby ensuring that the indoor sound levels are within the City of Ottawa's and the Ministry of the Environment and Climate Change's noise criteria;" and

ii) "The Purchaser/Lessee for himself, his heirs, executors, administrators, successors and assigns acknowledges being advised that noise levels due to increasing roadway traffic may be of concern, occasionally interfering with some activities of the dwelling occupants as the outdoor sound level exceeds the City of Ottawa's and the Ministry of the Environment and Climate Change's noise criteria."

7. That the Owner(s) provide proof that a grading and drainage plan, prepared by a qualified Civil Engineer, licensed in the Province of Ontario, an Ontario Land Surveyor or a Certified Engineering Technologist, delineating the existing and proposed grades for both the severed and retained lands has been provided to the satisfaction of the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.
8. That the Owner(s) enter into a Resurfacing Agreement with the City, to the satisfaction of the Program Manager, Right of Way Branch within the Planning, Development and Building Services Department, or their designate, and provide financial security in accordance with the Road Activity By-law, as amended, to install an asphalt overlay over the roadway surface of Grasmere Crescent, fronting the subject lands, to the limits shown on the approved Site Servicing Plan. Where the approved Site Servicing Plan demonstrates the resurfacing is not required, based on the City's Road Cut Resurfacing Policy, the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate, shall deem this condition satisfied.
9. That the Owner(s) provide a Stormwater Management Report, prepared by a Professional Civil Engineer, licensed in the Province of Ontario, demonstrating a design for post-development stormwater peak flows that are controlled to pre-development peak flows for all stormwater events up to and including the 100-year storm event. The report shall be to the satisfaction of and approved by the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.

If the Stormwater Management Report includes infiltration techniques, the Owner(s) must provide a supporting Geotechnical Brief prepared by a Professional Civil Engineer licensed in the Province of Ontario, for approval by the

Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.

That the Owner(s) enter into a Development Agreement with the City to construct the required stormwater system, including posting required securities. A copy of the Agreement and written confirmation from City Legal Services that it has been registered on title, shall be forwarded to the Committee of Adjustment.

If applicable, the Owner(s) shall obtain an Environmental Compliance Approval from the Ontario Ministry of Environment, Conservation and Parks.

Should the stormwater management system cross property lines or access to the system be over multiple properties, that the owner will seek approval of the Committee to grant easement(s) for access and maintenance of the stormwater system or register a Joint Use and Maintenance Agreement on title of the properties, all at the owner(s) costs.

10. That the Owner(s) provide a Site Servicing Study/Brief, prepared by a Professional Civil Engineer, licensed in the Province of Ontario, outlining the municipal servicing requirements, including fire flow requirement, for each unit and indicating, if required, that capacity exists within existing City infrastructure. The study shall be to the satisfaction of Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.
