

**CONSENT APPLICATION
COMMENTS TO THE COMMITTEE OF ADJUSTMENT
PANEL 1**

PLANNING, DEVELOPMENT AND BUILDING SERVICES DEPARTMENT

Site Address:	581 Brunel Street
Legal Description:	Lot 4, Registered Plan 22 E/S Mary St
File No.:	D08-01-25/B-00140 and D08-01-25/B-00141
Report Date:	July 17, 2025
Hearing Date:	July 23, 2025
Planner:	Dylan Geldart
Official Plan Designation:	Outer Urban Transect, Neighborhood Designation, Evolving Neighborhood Overlay
Zoning:	R2D

DEPARTMENT COMMENTS

The Planning, Development and Building Services Department **has no concerns with** the application.

DISCUSSION AND RATIONALE

Section 53 (12) of the Planning Act, R.S.O. 1990, c. P.13, as amended, permits the criteria for the subdivision of land listed in Section 51 (24) to be considered when determining whether provisional consent may be granted by a committee of adjustment. With respect to the criteria listed in Section 51 (24), staff have no concerns with the proposed consent application.

ADDITIONAL COMMENTS

Infrastructure Engineering

- The Planning, Development and Building Services Department will do a complete review of grading and servicing during the building permit process.
- At the time of building permit application, a grading/servicing plan prepared by a Professional Engineer, Ontario Land surveyor or a Certified Engineering Technologist will be required.
- Any proposed works to be located within the road allowance requires prior written approval from the Infrastructure Services Department.

- The surface storm water runoff including the roof water must be self contained and directed to the City Right-of-Way, not onto abutting private properties as approved by Planning, Development and Building Services Department.
- Existing grading and drainage patterns must not be altered.
- Asphalt overlay would be required if three or more road-cuts proposed on City Right of way. This includes the road cut for blanking of existing services, and any other required utility cuts (ie, gas, hydro, etc.).
- This property does not have frontage on a storm sewer.
- Service lateral spacing shall be as specified in City of Ottawa Standard S11.3.
- In accordance with the Sewer Connection By-Law, a minimum spacing of 1.0m is required between service laterals and the foundation face.
- Encroachment on or alteration to any easement is not permitted without authorization from easement owner(s).
- If deemed required after review by the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate, and there is sufficient justification, the Owner(s) must obtain the approval of the Committee to grant easement(s) as required for drainage, on the title of the property, all at their own costs.

Planning Forestry

There are no tree-related concerns with the proposed severance. The applicant/owner is requested to provide a servicing plan, to ensure the tree planting plan, prepared by Dendron Forestry Services (dated Dec. 2, 2024) can be implemented.

The applicant/owner is encouraged to provide additional soft landscaping and tree plantings in the rear yard, to provide future residents with shade, and mitigate the heat island effect.

Right of Way Management

The Right-of-Way Management Department has no concerns with the proposed Consent Application.

A Private approach permit is required to construct any newly created or modified driveway/approaches or close redundant approaches. Please contact the ROW Department for any additional information at rowadmin@ottawa.ca or visit the City webpage [Driveways | City of Ottawa](#) to submit a Private Approach application.

CONDITIONS

If approved, the Planning, Development and Building Services Department requests the Committee of Adjustment impose the following conditions on the application:

1. That the Owner(s) provide evidence, to the satisfaction of the Manager of Development Review All Wards, Planning, Development and Building Services Department, that each existing parcel has its own independent storm, sanitary and water services connected to City infrastructure and that these services do not cross the proposed severance line. If they do cross or are not independent, the Owner(s) will be required, at their own cost, to relocate the existing services or construct new services from the City sewers/watermain. Notice shall be provided in writing to the Committee from the Department confirming this condition has been fulfilled.
2. That the Owner(s) provide a Site Servicing Study including fire flow, prepared by a Professional Civil Engineer, licensed in the Province of Ontario, outlining the municipal servicing requirements for each unit and indicating, if required, that capacity exists within existing City infrastructure. The study shall be to the satisfaction of Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.
3. That the Owner(s) provide a Stormwater Management Report, prepared by a Professional Civil Engineer, licensed in the Province of Ontario, demonstrating a design for post-development stormwater peak flows that are controlled to pre-development peak flows for all stormwater events up to and including the 100 year storm event. The report shall be to the satisfaction of and approved by the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.

If the Stormwater Management Report includes infiltration techniques, the Owner(s) must provide a supporting Geotechnical Brief prepared by a Professional Civil Engineer licensed in the Province of Ontario, for approval by the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.

That the Owner(s) enter into a Development Agreement with the City to construct the required stormwater system, including posting required securities. A copy of the Agreement and written confirmation from City Legal Services that it has been registered on title, shall be forwarded to the Committee of Adjustment.

If applicable, the Owner(s) shall obtain an Environmental Compliance Approval from the Ontario Ministry of Environment, Conservation and Parks.

Should the stormwater management system cross property lines or access to the system be over multiple properties, that the owner will seek approval of the Committee to grant easement(s) for access and maintenance of the stormwater system or register a Joint Use and Maintenance Agreement on title of the properties, all at the owner(s) costs.

4. That the Owner(s) provide proof that a grading and drainage plan, prepared by a qualified Civil Engineer, licensed in the Province of Ontario, an Ontario Land Surveyor or a Certified Engineering Technologist, delineating the existing and proposed grades for both the severed and retained lands has been provided to the satisfaction of the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.

5. The Owner(s) shall:

Prepare a Noise Control Study, in compliance with the City of Ottawa Environmental Noise Control Guidelines, to the satisfaction of the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate. The Owner(s) shall enter into an agreement with the City, at the expense of the Owner(s), that requires the Owner(s) to implement any noise control attenuation measures recommended in the approved study. The Agreement shall also deal with any covenants/notices, recommended in the approved study, that shall run with the land and bind future owners on subsequent transfers, warning purchasers and/or tenants of expected noise levels due to the existing source of environmental noise (arterial, highway, airport, etc.). The Committee shall be provided a copy of the Agreement and written confirmation from City Legal Services that it has been registered on title.

Or

Design the dwelling units with the provision for adding central air conditioning at the occupant's discretion and enter into an Agreement with the City, at the expense of the Owner, which is to be registered on title to deal with the covenants/ notices that shall run with the land and bind future owners on subsequent transfers, warning purchasers and/or tenants of expected noise levels due to the existing source of environmental noise. The Committee requires a copy of the Agreement and written confirmation from City Legal Services that it has been registered on title. The following two conditions will be included in the above-noted Agreement:

Notices-on-Title respecting noise:

- i. "The Purchaser/Lessee for himself, his heirs, executors, administrators, successors and assigns acknowledges being advised that this dwelling unit has been fitted with a forced air heating system and the ducting, etc. was sized to accommodate central air conditioning. Installation of central air conditioning by the Purchaser/Lessee will allow windows and exterior doors to remain closed, thereby ensuring that the indoor sound levels are within the City of Ottawa's and the Ministry of the Environment and Climate Change's noise criteria;" and
 - ii. "The Purchaser/Lessee for himself, his heirs, executors, administrators, successors and assigns acknowledges being advised that noise levels due to increasing roadway traffic may be of concern, occasionally interfering with some activities of the dwelling occupants as the outdoor sound level exceeds the City of Ottawa's and the Ministry of the Environment and Climate Change's noise criteria."
6. That the Owner(s) enter into a Joint Use and Maintenance Agreement, at the expense of the Owner(s), setting forth the obligations between the Owner(s) and the proposed future owners with respect to the joint use and maintenance of all common elements including, but not limited to common areas, common driveways and common landscaping.

The Owner shall ensure that the Agreement is binding upon all unit owners and successors in title and shall be to the satisfaction of Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate, or City Legal Services. The Committee shall be provided written confirmation that the Agreement is satisfactory to the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate, or is satisfactory to City Legal Services, as well as a copy of the Agreement and confirmation that it has been registered on title.

7. That the Owner(s) enter into a Resurfacing Agreement with the City, to the satisfaction of the Program Manager, Right of Way Branch within the Planning, Development and Building Services Department, or their designate, and provide financial security in accordance with the Road Activity By-law, as amended, to install an asphalt overlay over the roadway surface of Brunel Street, fronting the subject lands, to the limits shown on the approved Site Servicing Plan. Where the approved Site Servicing Plan demonstrates the resurfacing is not required, based on the City's Road Cut Resurfacing Policy, the Manager of Development Review

All Wards Branch within Planning, Development and Building Services Department, or their designate, shall deem this condition satisfied.

8. That the Owner(s) provide proof that payment has been made to the City of Ottawa for cash-in-lieu of the conveyance of land for park or other public recreational purposes, plus applicable appraisal cost. The value of the land otherwise required to be conveyed shall be determined by the City of Ottawa in accordance with the provisions of By-Law No. 2022-280, as amended. Information regarding the appraisal process can be obtained by contacting the Planner.
9. That the Owner/Applicant(s) provide a Grading and Servicing Plan with the proposed elements/structures (services, retaining walls, projections, etc.) designed and located to allow for the planting of new trees, as detailed in the Tree Information Report prepared by Dendron Forestry Services, and dated December 2nd, 2024. This plan will be to the satisfaction of the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.
