DECISION AND REASONS OF THE COMMITTEE: APPLICATION GRANTED

Application Must Satisfy Statutory Tests

- [8] Under the *Planning Act*, the Committee has the power to grant a consent if it is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Also, the Committee must be satisfied that an application is consistent with the *Provincial Planning Statement, 2024*, and has regard for matters of provincial interest under section 2 of the Act, as well as the following criteria set out in subsection 51(24):

Criteria

(24) In considering a draft plan of subdivision, regard shall be had, among other matters, to the health, safety, convenience, accessibility for persons with disabilities and welfare of the present and future inhabitants of the municipality and to,

- a) the effect of development of the proposed subdivision on matters of provincial interest as referred to in section 2;

- b) whether the proposed subdivision is premature or in the public interest;
- c) whether the plan conforms to the official plan and adjacent plans of subdivision, if any;
- d) the suitability of the land for the purposes for which it is to be subdivided;
- d.1) if any affordable housing units are being proposed, the suitability of the proposed units for affordable housing;
- e) the number, width, location and proposed grades and elevations of highways, and the adequacy of them, and the highways linking the highways in the proposed subdivision with the established highway system in the vicinity and the adequacy of them;
- f) the dimensions and shapes of the proposed lots;
- g) the restrictions or proposed restrictions, if any, on the land proposed to be subdivided or the buildings and structures proposed to be erected on it and the restrictions, if any, on adjoining land;
- h) conservation of natural resources and flood control;
- i) the adequacy of utilities and municipal services;
- j) the adequacy of school sites;
- k) the area of land, if any, within the proposed subdivision that, exclusive of highways, is to be conveyed or dedicated for public purposes;
- l) the extent to which the plan's design optimizes the available supply, means of supplying, efficient use and conservation of energy; and
- m) the interrelationship between the design of the proposed plan of subdivision and site plan control matters relating to any development on the land, if the land is also located within a site plan control area designated under subsection 41 (2) of this Act or subsection 114 (2) of the City of Toronto Act, 2006. 1994, c. 23, s. 30; 2001, c. 32, s. 31 (2); 2006, c. 23, s. 22 (3, 4); 2016, c. 25, Sched. 4, s. 8 (2).

Evidence

- [9] Evidence considered by the Committee included all oral submissions made at the hearing, as highlighted above, and the following written submissions held on file with the Secretary-Treasurer and available from the Committee Coordinator upon request:

- Application and supporting documents, including a cover letter, plans, parcel abstract, photo of the posted sign, and a sign posting declaration.
- City Planning Report received March 12, 2026, with no concerns.

- J. & C. Wilcox, residents, email dated March 16, 2026, with comments.

Effect of Submissions on Decision

- [10] The Committee considered all written and oral submissions relating to the application in making its decision and granted the application.
- [11] The Committee notes that the City’s Planning Report raises “no concerns” regarding the application subject to the requested conditions agreed to by the Applicant.
- [12] Based on the evidence, the Committee is satisfied that the proposal is consistent with the *Provincial Planning Statement, 2024*, that promotes building homes, sustaining strong communities; providing infrastructure and public service facilities in an efficient manner while accommodating projected needs; the wise use and management of resources; and, protecting public health and safety.
- [13] The Committee is also satisfied that the proposal has adequate regard to matters of provincial interest, including the orderly development of safe and healthy communities; the appropriate location of growth and development; and the protection of public health and safety.
- [14] Additionally, the Committee is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality.
- [15] Moreover, the Committee is satisfied that the proposal has adequate regard for the criteria specified under subsection 51(24) of the *Planning Act* and is in the public interest.
- [16] **THE COMMITTEE OF ADJUSTMENT ORDERS** that the application is granted and the provisional consent is to be given, subject to the conditions set out in Appendix A to this decision.

APPENDIX A

1. That the Owner(s) submit a request for municipal addresses for each parcel, as required, to be assigned by the City, **to the satisfaction of the Chief Building Official, or their designate**. Confirmation of the assigned municipal addresses shall be provided in writing from Municipal Addressing, Building Code Services, to the Committee.

2. That the Owner(s) provide proof, **to the satisfaction of the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate**, that the retained parcel has its own well, independent private sewage system, and storm/foundation drainage and that they do not cross the proposed severance line. If the systems do cross, are not independent, or do not meet the minimum spacing requirements of the Ontario Building Code and City of Ottawa Hydrogeological and Terrain Analysis Guidelines, the Owner(s) will be required, at their own cost, to relocate the existing systems or construct new systems.

3. That the Owner(s) provide a Hydrogeological and Terrain Analysis report, **to the satisfaction of the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate**. The report shall be prepared by a licensed Professional Geoscientist (P.Geo.) or Professional Engineer (P.Eng.) and be in accordance with the City of Ottawa's council-approved Hydrogeological and Terrain Analysis Guidelines (March, 2021), as amended. The reporting must provide sufficient information with the application to demonstrate:
 - a. That sufficient quantity of groundwater exists on the site to service the development,
 - b. That the quality of the groundwater meets or exceeds the drinking water standards and guidelines referenced in the City's council-approved Hydrogeological and Terrain Analysis Guidelines (March, 2021), as amended, and
 - c. That the operation of sewage systems on the lots will not adversely impact on wells to be constructed or on the wells of neighboring properties.

Where groundwater water quantity or quality are considered marginal, as many as one test well per lot may be required to demonstrate the adequacy of the aquifer to support the proposed development. Technical Pre-Consultation with the City's Hydrogeological staff is highly recommended for sites where quantity or quality are marginal, where dug wells are contemplated, or where the site is likely to be hydrogeologically sensitive.

If the accepted report recommends specific mitigation measures or design requirements, the Owner(s) shall enter into a Development Agreement with the City, at the expense of the Owner(s), to include those recommendations and such agreement shall be registered on title. In instances where the subject site is hydrogeologically sensitive, the drilling of a well and/or the conveyance of a 30-centimetre reserve may be required to ensure that the measures are implemented in

accordance with the recommendations of the approved hydrogeological reporting. Both the report and any required Development Agreement shall be prepared **to the satisfaction of the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.**

4. That the Owner(s) enter into an Agreement with the City, at the expense of the Owner(s), which is to be registered on title to deal with the following covenant/notice that shall run with the land and bind future owners on subsequent transfers:

“The City of Ottawa does not guarantee the quality or quantity of the groundwater. If, at some future date, the quality or the quantity of the groundwater becomes deficient, the City of Ottawa bears no responsibility, financial or otherwise, to provide solutions to the deficiency, such solutions being the sole responsibility of the homeowner.”

The Committee shall be provided a copy of the Agreement and **written confirmation from City Legal Services** that it has been registered on title.

5. That the Owner provide a Slope Stability Analysis, prepared by a Professional Civil Engineer or professional geoscientist, licensed in the Province of Ontario, **to the satisfaction of both the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate and the Rideau Valley Conservation Authority.** Where the approved Grading Plan demonstrates the slope stability analysis is not required, based on the City’s Slope Stability Guidelines, the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate, shall deem this condition satisfied.
6. That the Owner(s) provide proof that a grading and drainage plan, prepared by a qualified Civil Engineer, licensed in the Province of Ontario, an Ontario Land Surveyor or a Certified Engineering Technologist, delineating the existing and proposed grades for both the severed and retained lands has been provided **to the satisfaction of the Manager of Development Review All Wards Branch within Planning, Development and Building Services Department, or their designate.**
7. That the Owner(s) enter into an Agreement with the City, at the expense of the Owner(s), which is to be registered on title to deal with the following covenant/notice that shall run with the land and bind future owners on subsequent transfers:

“The City of Ottawa has identified that there are potential sensitive marine clay soils within the area that may require site specific detailed geotechnical engineering solutions to allow for development, the City of Ottawa bears no responsibility, financial or otherwise, to provide solutions to the deficiency, such solutions being the sole responsibility of the homeowner.”

The Committee shall be provided a copy of the Agreement and written confirmation from **City Legal Services** that it has been registered on title.

8. That the Owner(s) enter into an Agreement with the City, at the expense of the Owner(s), which is to be registered on title to deal with the following covenant/notice that shall run with the land and bind future owners on subsequent transfers:

“The property is located next to lands that have an existing source of environmental noise (arterial road) and may therefore be subject to noise and other activities associated with that use.”

The Committee shall be provided a copy of the Agreement and written confirmation from **City Legal Services** that it has been registered on title.

9. Pursuant to clause 51 (25) (c) of the *Planning Act* and Schedule C16 of the City’s Official Plan, the Owner conveys to the City, at no cost to the City, an unencumbered road widening across the complete Prince of Wales Drive frontage of the lands, measuring 11.5 meters from the existing centerline of pavement/the abutting right-of-way. The exact widening must be determined by legal survey. The Owner shall provide a reference plan for registration, indicating the widening, **to the City Surveyor for review and approval** prior to its deposit in the Land Registry Office. Such reference plan must be tied to the Horizontal Control Network in accordance with the municipal requirements and guidelines for referencing legal surveys. The Owner(s) must provide to the City Surveyor a copy of the Committee of Adjustment Decision and a draft Reference Plan that sets out the required widening. The Committee shall be provided **written confirmation from City Legal Services** that the transfer of the widening to the City has been registered. All costs shall be borne by the Owner.
10. That the Owner(s) file with the Committee a copy of the registered Reference Plan prepared by an Ontario Land Surveyor registered in the Province of Ontario, and signed by the Registrar, **confirming the frontage and area of the severed land. If the Registered Plan does not indicate the lot area, a letter from the Surveyor confirming the area is required.** The Registered Reference Plan must conform substantially to the Draft Reference Plan filed with the Application for Consent to the satisfaction of the **Secretary-Treasurer of the Committee of Adjustment or their designate.**
11. That upon completion of the above conditions, and **within the two-year period outlined above**, the Owner(s) file with the Committee, the “electronic registration in preparation documents” for a severance for which the Consent is required to the satisfaction of the **Secretary-Treasurer of the Committee of Adjustment or their designate.**
