

## COMMITTEE OF ADJUSTMENT OF THE CITY OF OTTAWA

### DECISION MINOR VARIANCE PERMISSION

(Section 45 of the *Planning Act*)

<b>File No.:</b>	D08-02-22/A-00199
<b>Owner(s):</b>	City of Ottawa
<b>Location:</b>	2121 Huntley Road
<b>Ward:</b>	21 - Rideau-Goulbourn
<b>Legal Description:</b>	Part of Lot 22, Concession 8, Former Township of Goulbourn
<b>Zoning:</b>	R13[444r]
<b>Zoning By-law:</b>	2008-250

Notice was given and a public hearing was held on **August 17, 2022**, as required by the *Planning Act*.

#### PURPOSE OF THE APPLICATION:

The Owner wants to construct a new salt dome, as shown on plans filed with the Committee. The existing municipal office building, lawn bowling facility and Public Works yard structures will remain on the property.

#### RELIEF REQUIRED:

The Owner requires the Authority of the Committee for a Minor Variance from the Zoning By-law to permit an increased building height of 14.25 metres, whereas the By-law permits a maximum building height of 12 metres.

The application indicates that the Property is the subject of a current Site Plan Application (D07-12-21-0187) under the *Planning Act*.

#### PUBLIC HEARING:

The Panel Chair administered an oath to Paul Robinson, Agent for the Applicant, who confirmed that the statutory notice posting requirements were satisfied.

Also in attendance was Stephan Kukkonen of the City's Planning, Real Estate and Economic Development Department.

**DECISION AND REASONS OF THE COMMITTEE: APPLICATION GRANTED**

The Committee considered any written and oral submissions relating to the application in making its Decision.

The Committee has the power to authorize a minor variance from the provisions of the Zoning By-law if, in its opinion, the application meets all four requirements under subsection 45(1) of the *Planning Act*. It requires consideration of whether the variance is minor, is desirable for the appropriate development or use of the land, building or structure, and whether the general intent and purpose of the Official Plan and the Zoning By-law are maintained.

Based on the evidence, the Committee is satisfied that the requested variance meets all four requirements under subsection 45(1) of the *Planning Act*.

The Committee notes that the City's Planning Report raises "no concerns" regarding the application, highlighting that: "The structure will be located as far as possible from the neighbouring residential uses. The uses that are within close proximity to the salt storage dome include mineral resource extraction and should not be impacted by the proposed increase in height."

The Committee also notes that no evidence was presented that the variance would result in any unacceptable adverse impact on neighbouring properties

Considering the circumstances, the Committee finds that, because the proposal allows for the renewal and replacement of necessary municipal infrastructure to serve the area, the requested variance is, from a planning and public interest point of view, desirable for the appropriate use of the land, building or structure on the property, and relative to the neighbouring lands. The Committee also finds that the requested variance maintains the general intent and purpose of the Official Plan because the proposal is appropriate for its location and will allow for the continued service of the area. In addition, the Committee finds that the requested variance maintains the general intent and purpose of the Zoning By-law as the proposal represents orderly development of the property that is compatible with the surrounding area. Moreover, the Committee finds that the requested variance is minor because it will not create any unacceptable adverse impact on abutting properties or the neighbourhood in general.

The Committee therefore authorizes the requested variance, **subject to** the location and size of the proposed construction being in accordance with the plans filed, Committee of Adjustment date stamped July 12, 2022.

**NOTICE OF RIGHT TO APPEAL:**
