DECISION AND REASONS OF THE COMMITTEE: APPLICATION GRANTED

The Committee considered any written and oral submissions relating to the application in making its Decision, including written letters in opposition submitted by area residents.

Under the *Planning Act*, the Committee has the power to grant a consent if it is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Also, the Committee must be satisfied that an application is consistent with the Provincial Policy Statement and has regard for matters of provincial interest under section 2 of the Act, as well as the following criteria set out in subsection 51(24):

Criteria

(24) In considering a draft plan of subdivision, regard shall be had, among other matters, to the health, safety, convenience, accessibility for persons with disabilities and welfare of the present and future inhabitants of the municipality and to,

(a) the effect of development of the proposed subdivision on matters of provincial interest as referred to in section 2;

(b) whether the proposed subdivision is premature or in the public interest;

(c) whether the plan conforms to the official plan and adjacent plans of subdivision, if any;

(d) the suitability of the land for the purposes for which it is to be subdivided;

(d.1) if any affordable housing units are being proposed, the suitability of the proposed units for affordable housing;

(e) the number, width, location and proposed grades and elevations of highways, and the adequacy of them, and the highways linking the highways in the proposed subdivision with the established highway system in the vicinity and the adequacy of them;

(f) the dimensions and shapes of the proposed lots;

(g) the restrictions or proposed restrictions, if any, on the land proposed to be subdivided or the buildings and structures proposed to be erected on it and the restrictions, if any, on adjoining land;

(h) conservation of natural resources and flood control;

(i) the adequacy of utilities and municipal services;

(j) the adequacy of school sites;

(k) the area of land, if any, within the proposed subdivision that, exclusive of highways, is to be conveyed or dedicated for public purposes;

(l) the extent to which the plan's design optimizes the available supply, means of supplying, efficient use and conservation of energy; and

(m) the interrelationship between the design of the proposed plan of subdivision and site plan control matters relating to any development on the land, if the land is also located within a site plan control area designated under subsection 41 (2) of this Act or subsection 114 (2) of the *City of Toronto Act, 2006*. 1994, c. 23, s. 30; 2001, c. 32, s. 31 (2); 2006, c. 23, s. 22 (3, 4); 2016, c. 25, Sched. 4, s. 8 (2).

The Committee notes that the City's planning report raises "no concerns" regarding the applications.

Based on the evidence, the Committee is satisfied that the proposal is consistent with the Provincial Policy Statement that promotes efficient land use and development as well as intensification and redevelopment within built-up areas, based on local conditions. The Committee is also satisfied that the proposal has adequate regard to matters of provincial interest, including the orderly development of safe and healthy communities; the appropriate location of growth and development; and the protection of public health and safety. Additionally, the Committee is satisfied that a plan of subdivision of the land is not necessary for the proper and orderly development of the municipality. Moreover, the Committee is satisfied that the proposal has adequate regard for the criteria specified under subsection 51(24) of the *Planning Act* and is in the public interest.

The Committee therefore grants the provisional consent, subject to the following conditions, **which must be fulfilled within a two-year period from the date of this Decision:**

1. That the Owner(s) file with the Secretary-Treasurer of the Committee of Adjustment the following:
 - a. A copy of the Reference Plan and/or legal description of the severed land and the deed or instrument conveying the severed land to the owner of the abutting property to the northeast, known municipally as 7018

Flewellyn Road, so that no new lot is being created, in accordance with paragraph (b) below;

b. A Certificate of Official attached to the deed/transfer required by paragraph (a) above containing the following endorsement:

“The lands to be severed are for the purpose of a lot addition only to the abutting lands owned by (insert name) described as PIN (insert property identification number) being Part(s) (insert numbers) on Plan (insert plan number), not for the creation of a new lot, and any subsequent transfer, charge or other transaction involving the lands to be severed shall be subject to compliance with Section 50(3) or Section 50(5) of the Planning Act, as applicable. Neither the lands to be severed nor the abutting lands are to be transferred, charged or otherwise re-conveyed in the future without the other parcel unless a further consent is obtained. The Owner shall cause the lands to be severed to be consolidated on title with the abutting lands and for this condition to be entered on the parcel register for the consolidated parcel as a restriction”;

c. An Undertaking from a solicitor authorized to practice law in the Province of Ontario, and in good standing with the Law Society of Upper Canada, as follows:

“In consideration of, and notwithstanding the issuance of the Certificate under Section 50(12) of the Planning Act in respect to the subject Application for Consent, I undertake on behalf of the Owner, within 30 days of the registration on title of the transfer document containing the endorsement set out in the Certificate of Official issued by the Committee of Adjustment, to file an Application to Consolidate Parcels including the severed land (Part of PIN (insert number) and the abutting land (PIN insert number). This PIN consolidation is intended to reinforce the Planning Act stipulation in the condition outlined above that both parcels have merged on Title and cannot be conveyed separately in the future. I further undertake to forward a copy of the registered Application to Consolidate Parcels and a copy of the Consolidated Parcel abstract page(s) to the Committee office within 21 days of the registration of the Application to Consolidate Parcels”.

d. Where the parcel consolidation stipulated in paragraph (b) and the solicitor's Undertaking in paragraph (c) above cannot be reasonably completed because the parcels of land to be merged have different estate qualifiers, an Application to Annex Restrictive Covenant under Section 118 of the Land Titles Act must be registered on the Title of both the severed lands and on the abutting parcel that is to be merged. The Covenant, which is to be to the satisfaction of the Secretary-Treasurer of the Committee, shall advise all future purchasers that the parcels must be dealt with together and not separately, and contain wording set out below

or similar wording acceptable to the Secretary-Treasurer of the Committee:

“These lands have been merged and may not be dealt with separately, without applying for a Consent of the Committee of Adjustment”.

In lieu of the Undertaking provided in paragraph (c), a replacement Undertaking by the solicitor must be filed undertaking on behalf of the Owner to register the Restrictive Covenant on both property Titles within 30 days of the registration of the transfer document containing the endorsement of the Certificate of Official issued by the Committee of Adjustment for this application and to file a copy of the registered Restrictive Covenant with the Committee within 21 days of the registration of the document.

2. That the Owner(s) convey, if required, at no charge to the City of Ottawa, sufficient frontage across the severed and retained lands to provide for a road right-of-way measuring 13 metres from the centerline of Flewellyn Road and 15 metres from the centerline of Fallowfield Road. The Owner(s) must provide to the City Surveyor a copy of the Committee of Adjustment Decision and a draft Reference Plan that sets out the required widening. The Committee requires written confirmation from City Legal Services that the transfer of the widening to the City has been registered.

If the Owner's Surveyor determines that the widening condition has already been satisfied, it must be indicated on the Draft Reference Plan and submitted to the City Surveyor for approval. The Committee requires written confirmation from the City Surveyor confirming that the widening is not required.

If the Owner(s) wish to temporarily retain the existing fence within the widening lands until the City develops the widening lands, the Owner(s) shall enter into (and register, if necessary) an encroachment agreement and/or letter of tolerance to the satisfaction of the General Manager, Planning, Infrastructure, and Economic Development. The Committee requires written confirmation from City Legal Services confirming either that a letter of tolerance/encroachment agreement has been executed (and registered if necessary) or will not be required.

3. That the Owner(s) provide proof to the satisfaction of **Development Review Manager of the Relevant Branch within Planning, Infrastructure and Economic Development Department, or his/her designate**, to be confirmed in writing from the Department to the Committee, that each existing parcel has its own independent private sewage system, storm/foundation drainage, and well and that they do not cross the proposed severance line. If the systems cross the proposed severance line, are not independent, or do not meet the minimum spacing requirements of the Ontario Building Code and City of Ottawa Hydrogeological and Terrain Analysis Guidelines, the Owner(s) will be required to relocate the existing systems or construct new systems, at his/her own cost.

4. That the Owner(s) file with the Committee a copy of the registered Reference Plan prepared by an Ontario Land Surveyor registered in the Province of Ontario, and signed by the Registrar, **confirming the frontage and area of the severed land. If the Registered Plan does not indicate the lot area, a letter from the Surveyor confirming the area is required.** The Registered Reference Plan must conform substantially to the Draft Reference Plan filed with the Application for Consent.
5. That upon completion of the above conditions, and **within the two-year period outlined above**, the Owner(s) file with the Committee, the “electronic registration in preparation documents” for a Conveyance for which the Consent is required.

The Consent lapses two years from the date of this Decision.

All technical studies must be submitted to Planning, Real Estate and Economic Development Department a minimum of **40 working days** prior to lapsing date of the consent. Should a Development Agreement be required, such request should be initiated **15 working days** prior to lapsing date of the consent and should include all required documentation including the approved technical studies.

Please note that if a major change to a condition or conditions is requested, you will be entitled to receive Notice of the changes only if you have made a written request to be notified.
