## **BACKGROUND**

The City of Ottawa's Mural Program has been successful in supporting arts and culture, deterring graffiti, and adding a unique layer of beauty and character to our City. As part of this process, the Building Code Services Branch reviews mural proposals to assess compliance with the Permanent Signs on Private Property By-law with respect to

location, appropriate zoning and mural content. A mural approval does not require a permit and there is no fee for the associated staff review.

The property is zoned TM6 (Traditional Mainstreet zone) and designed as Traditional Mainstreet in the Official Plan. The Permanent Signs on Private Property By-law 2016-326, as amended, permits a mural on a commercially zoned building. In addition, a mural is allowed on the first three storeys of the building (excluding the main entrance elevation), provided it is not used to promote commercial advertising or public information or solicitation of any kind with the exception of a limited area to acknowledge the artist or sponsor of the sign.

The property owner, Ottawa Community Housing, is supportive of the placement of the proposed mural on this building. The theme of the mural, “by the community for the community”, was selected to create awareness of the contributions of newcomers to Ottawa. The design concept will be developed through community brainstorming sessions led by the mural artist. Residents of the Sandy Hill community are encouraged to participate.

## **DISCUSSION**

The mural will be installed on the west and south elevations of a 15 storey apartment building located at the corner of Wurtemberg and Rideau Street. It is proposed that the mural design commence at grade level on the west side of the building facing Wurtemberg and continue to the south elevation extending up to the tenth storey.

The west elevation of the building is primarily comprised of apartment fenestration and features the main entrance into the building lobby. The south elevation of the building currently consists of a tall blank wall, absent of architectural relief, windows or aesthetic features. Exemptions to the By-law is necessary to allow the mural to be painted/installed on a wall that contains the main entrance to the building and secondly, to allow for the mural to extend above the third story maximum limit as prescribed in the regulations.

The mural reflects the character of the established community consistent with the guidelines found in the Official Plan for a Traditional Mainstreet. In addition, the proposed mural fulfills the public art component as mentioned in the Uptown Rideau Community Design Plan, where it recommends placement of a mural on the subject Ottawa Community Housing building at 215 Wurtemburg Street to enliven the facade. This mural will also assist in graffiti prevention at the lower floors of the building.

It is intended that the mural be completed in advance of a scheduled ceremony to be held in June of this year commemorating “Welcoming Ottawa Week”, an annual week of events created to convey the hospitality of the people of Ottawa to newcomers. It is also necessary that procedural rules be suspended so that this item can proceed to the next available Council meeting in order for the proposal to have Council approval prior to being assessed for a possible grant from the City’s Paint It Up Committee meeting on April 13, 2018. Further, the painting of this mural will need to begin in May and approval through the regular process would not be possible within this timeline.

After approval, the community will decide on the mural design. The artist is seeking to engage the community in assisting in the mural creation. It is recommended that additional review takes place once the final concept is completed to ensure that mural complies with other standards in the Sign By-law and the Paint It Up program.
