

## Document 9 - Technical Amendments

Staff identified several addressing errors related to properties added to the Heritage Register via the June 26, 2019 report Additions to the Heritage Register – City Wide (File Number ACS2019-PIE-RHU-0012). As a result, references to these properties should be updated. Heritage Services staff recommend amending the municipal addresses of these properties by removing reference to the previous address and replacing it with the amended address below.
