BACKGROUND

Every year, Ottawa Public Health (OPH) publishes an Annual Report to communicate about the services available to the community, thank community partners for their commitment in collaborating to improve the health of Ottawa residents, and meet requirements under the *Ontario Public Health Organizational Standards* (OPHS). In addition to its duties and responsibilities under the *Health Protection and Promotion Act* (HPPA), the Board shall, at the request of the City, make an annual report to the City on the Board's operations, pursuant to the *City of Ottawa Act, 1999*, section 12(7).

DISCUSSION

The 2018 Annual Report highlights some of Ottawa Public Health's key achievements of the past year in working to build a healthier community. The report includes:

- Examples of the work to support OPH's mandate;
- Financial data on OPH's sources of revenue and allocation of spending for a balanced budget; and
- Recognition of the Board of Health's and the City of Ottawa's leadership, the contribution of partners, and the expertise of a diverse cross-section of OPH employees, such as Public Health Inspectors and Public Health Nurses, that support healthy communities.

The programs and services highlighted in this report represent only a sampling of OPH's initiatives to improve health and well-being for all through prevention, promotion and protection.

OPH's work could not be possible without the efforts of its dedicated employees, volunteers, learners and the continued support of the Board of Health, partners, and the many individuals and organizations that contribute to the goal of a healthier, more equitable city for all.

Distribution of the Report

OPH will disseminate its 2018 annual report to stakeholders and the public, through promoting the release of the report on social media, as well as posting the report on its website and distributing it electronically to community partners and stakeholders.
