Site location:

6462 First Line Road

Owner

Robert and Janet Smiley

Applicant

Jeff Shipman, H.A. Ken Shipman Surveying Ltd.

Description of site and surroundings

The property is located on the west side of First Line Road, north of Rogers Stevens Drive and south of Phelan Road.

The lands comprise of entirely vacant agricultural land. Surrounding uses are predominately agricultural, with intermittent residential lots along First Line Road.

Summary of requested Zoning By-law amendment proposal

The proposed Zoning By-law amendment is related to the severance of a surplus farm dwelling lot approved by the Committee of Adjustment on February 1, 2017. Conditions of Approval require that the “retained lands” be rezoned to prohibit residential development.

No new development is proposed, and the retained land will continue its agricultural use which is currently the growing of crops.

The retained lands are intended to be zoned Agricultural Subzone 6 (AG6). This zoning permits agricultural uses in areas designated “Agricultural Resource Area” as above, but prohibits a detached dwelling. This particular subzone represents agricultural lands with a minimum area of 18 hectares and a minimum lot width of 60 metres.

DISCUSSION

Public consultation

Notification and public consultation was undertaken in accordance with the Public Notification and Consultation Policy approved by City Council for Zoning By-law amendments. The proposal was subject to public notification. A public information package was distributed to property owners with properties within 120 metres of 6462 First Line Road; the Country Club Village Community Association; Kars Homeowners Association; Longfields Community Church; Manotick Village and Community Association; South Pointe Community Group; Stonebridge Community Association; and Councilor Moffatt. In addition, a development sign was posted on the property. No comments were received.

Official Plan designation

As per Schedule A of the Official Plan, 6462 First Line Road is designated Agricultural Resource Area.

The intent of the Agricultural Resource Area designation is to protect agricultural resources for future generations, from loss of lands to other uses. This protection includes policies that strictly limit permitted land uses and lot creation on all lands identified as Agricultural Resource Areas.

The City may permit the severance of a parcel containing a dwelling unit made surplus through farm consolidation. The vacant agricultural parcel so created is to be rezoned to prohibit any residential use and no subsequent rezoning to allow a new dwelling unit will be permitted.

The Committee of Adjustment in granting the severance of the dwelling unit has required, in accordance with the Official Plan, the retained lands to be rezoned, prior to finalization of the consent.

Planning rationale

The entire property is currently zoned Agricultural Subzone 2 (AG2) which permits agricultural uses; other uses that preserve prime agricultural lands; and one dwelling

unit, on a parcel that has a minimum lot area of 18 hectares and minimum lot width of 60 metres.

In accordance with the Provincial Policy Statement and the Official Plan, the Committee of Adjustment required that the retained vacant farmland be rezoned to prohibit future residential dwellings.

The Zoning By-law sets up specific zones that prohibit residential uses for these circumstances, depending on the area and lot width associated with the final parcel configuration. In this case the retained parcel is approximately 20 hectares in area with an approximate lot width of approximately 105 metres. The Agricultural Subzone 6 (AG6) sets a minimum lot area of 18 hectares and minimum lot width of 60 metres. Therefore, the lands are proposed to be rezoned from Agricultural Subzone 2 (AG2) which permits a dwelling unit to Agricultural Subzone 6 (AG6), which does not.

Provincial Policy Statement

Staff have reviewed this proposal and have determined that it is consistent with the Provincial Policy Statement, 2014.

RURAL IMPLICATIONS

The rezoning supports the agricultural community, permitting a farmer to dispose of a dwelling surplus to his operation, while protecting and preserving the agricultural use of the retained lands, by prohibiting future dwellings to be constructed thereon.
