Response to Inquiries

- OCC 13-19 - Rat Complaints Inquiry

Motion No 7/1

Moved by: Councillor M. Fleury

BE IT RESOLVED that, pursuant to Subsection 89(3) of the Procedure By-law, Community and Protective Services Committee approve that Response to Inquiry (OCC 13-19 - Rat Complaints Inquiry) be added to the agenda for consideration at today's meeting in order to consider the following motion:

CARRIED

Kevin Wylie, General Manager, Public Works and Environmental Services, Richard Ashe, Manager, Permit Approvals, Planning, Infrastructure and Economic Development (PIED), Andrew McCreight, Planner, PIED and Geneviève Langlais, Legal Services were present and responded to questions.

Questions of staff having concluded, the Community and Protective Services Committee CARRIED the following motion as presented as well as a direction to staff.

Motion No 7/2

Moved by: Councillor M. Fleury

WHEREAS rats are carriers and transmitters of diseases that can negatively impact public health and create a negative perception of our City, particularly in destination areas with high concentrations of local attractions; and

WHEREAS best practices in controlling rats includes eliminating food and water sources, eliminating living spaces, and protecting buildings to prevent infestations; and

WHEREAS in 2017, Council directed staff to establish a monitoring and baiting in sewers pilot program to address rats and to develop a long-term strategy for determining baseline rodent population; and

WHEREAS a working group including Ottawa Public Health, Bylaw Services, Public Works and Environmental Services, and 311 was created to coordinate efforts in addressing rat complaints and implement proactive measures, including increased education and outreach, adopting a specific service request classification for rats and rodents, proactive baiting in sewers, and enforcing property standards; and

WHEREAS the results of a 2-year pilot program to conduct proactive baiting in sanitary sewers through CCTV cameras have shown the rat population in sewers is low, with 8 sightings in 2018 and 23 in 2019. However, rat complaints in Ottawa have increased by nearly 40% compared to 2015 with Rideau-Vanier ward representing 34% of complaints in 2018, which highlights the need for the working group to continue to develop solutions to address the ongoing rat issues in Rideau-Vanier and across the City.

THEREFORE BE IT RESOLVED that staff be directed to implement cost neutral rat control methods, including specific rat prevention practices in regular parks maintenance; incorporating inspections for rats into the twice annual inspections of abandoned buildings and issue orders to the owners to remedy any infestations if evidence is found; and,

THEREFORE BE IT FURTHER RESOLVED that staff in Planning, Infrastructure and Economic Development be directed to assess the options under their mandate to implement a program for proactive rat baiting prior to construction and issuing demolition permits and if such a program is possible, report back to the appropriate committee with recommendations including how such a program could be administered, detail any financial impacts and what monitoring could be put in place to assess its effectiveness.

Direction to Staff:

That Legal Services provide an opinion on the feasibility of the motion prior to its consideration at Council.

- CPS 03-19 Paramedic offload delays

Motion No 7/3

Moved by Councillor K. Egli
