ACS2019-PIE-IS-0002

REPORT RECOMMENDATIONS:

That the Standing Committee on Environmental Protection, Water and Wastewater Management recommend Council:

- 1. Approve the preferred Eastern Subwatersheds Stormwater Management Retrofit Plan as described herein and listed as Document 8; and**
- 2. Approve the filing of the Eastern Subwatersheds Stormwater Management Retrofit Study for the 30-day public review period in accordance with the *Ontario Environmental Assessment Act*.**

The Committee received a detailed slide presentation from Mr. Laurent Jolliet, Project Specialist (Stormwater), Stormwater Management Branch, Parks, Forestry and Stormwater Services, Public Works and Environmental Services (PWES) Department. A copy of this presentation is held on file with the City Clerk.

Committee discussions and questions to staff included, but were not necessarily limited to: monitoring of water quality in creeks and stormwater ponds in urban areas; the implementation of lot level measures on private properties; incentive programs to encourage participation by private landowners, and; engaging with the newly-established Council Climate Change Sponsors' Group.

Discussions having concluded, the report recommendations were put before the Committee and were "CARRIED", as presented.
