SPEED REDUCTION ON BLAIR ROAD

ACS2015-CMR-TRC-0005

BEACON HILL-CYRVILLE (11)

REPORT RECOMMENDATION:

That the Transportation Committee recommend to Council that the speed limit along Blair Road between a point 135m north of Meadowbrook Drive and a point 145m north of Innes Road be reduced to 50 km/h.

The Committee received a brief PowerPoint slide presentation overview of the report from Beacon Hill-Cyrville Ward Councillor Tim Tierney, who spoke to his recommendation requesting approval for a speed reduction for the subject area. A copy of the Councillor's presentation is held on file with the City Clerk. Mr. Kevin Wylie, General Manager, Public Works Department, City Operations, was present to respond to questions.

Committee discussions and questions to staff included the rationale for the current, and seemingly conflicting, posted speed limits in the subject area based on whether traffic is north- or south-bound, the original rationale for the speed limits, based on road design, and the need for enforcement to ensure that drivers would be compliant with any change in speed, were a change in the speed limit to be approved.

Discussions having concluded, the Committee "Carried" the report recommendation as presented.
