

DOCUMENT 1: Targets for 2016 PHFAA Indicators

Table 1: Health Promotion Indicators

Health Promotion Indicators	Time Frame	Target
% of population (19+) that exceeds the Low-Risk Alcohol Drinking Guidelines	2015	Monitoring
Fall-related emergency visits in older adults 65+	2015	Monitoring
% of youth (ages 12-18) who have never smoked a whole cigarette	2014/2015	Monitoring
% of tobacco vendors in compliance with youth access legislation at the time of last inspection	2016	>90%
% of secondary schools inspected once per year for compliance with section 10 of the <i>Smoke-Free Ontario Act</i>	2016	100%
% of tobacco retailers inspected for compliance with section 3 of the <i>Smoke-Free Ontario Act [non-seasonal]</i>	2016	100%
% of tobacco retailers inspected for compliance with section 3 of the <i>Smoke-Free Ontario Act [seasonal]</i>	2016	100%
% of tobacco retailers inspected once per year for compliance with display, handling and promotion sections of the <i>Smoke-Free Ontario Act</i>	2016	100%
Oral Health Assessment and Surveillance: % of schools screened	2015/16 school year	100%
% of JK, SK and Grade 2 students screened in all publicly funded schools	2015/16 school year	100%
% of JK, SK and Grade 2 students who were absent and excluded/refused	2015/16 school year	N/A
Implementation Status of NutriSTEP® Preschool Screen	2016	Maintain
Baby-Friendly Initiative (BFI) Status	2016	Maintain

Table 2: Health Protection Indicators

Health Protection Indicators	Time Frame	Target
% of high-risk food premises inspected once every 4 months while in operation	2016	Monitoring
% of moderate-risk food premises inspected once every 6 months while in operation	2016	Monitoring
% of Class A pools inspected while in operation [year-round facilities]	2016	Monitoring
% of Class A pools inspected while in operation [seasonal facilities]	2016	Monitoring
% of high-risk Small Drinking Water Systems (SDWS) inspections completed for those that are due for re-inspection	2016	100%
% of public spas inspected while in operation [year-round facilities]	2016	Monitoring
% of public spas inspected while in operation [seasonal facilities]	2016	Monitoring
% of personal services settings inspected annually	2016	Monitoring
% of suspected rabies exposures reported with investigation initiated within 1 day of PHU notification	2016	99.7%
% of confirmed gonorrhea cases where initiation of follow-up occurred within 2 business days	2016	Monitoring
% of confirmed iGAS cases where initiation of follow-up occurred on the same day as receipt of lab confirmation of a positive case	2016	Monitoring
% of salmonellosis cases where one or more risk factor(s) other than 'Unknown' was entered into iPHIS	2016	94.9%
% of confirmed gonorrhea cases treated according to recommended Ontario treatment guidelines	2016	Monitoring
% of HPV vaccine wasted that is stored/ administered by the PHU	2015/16 school year	Monitoring

Health Protection Indicators	Time Frame	Target
% of influenza vaccine wasted that is stored/ administered by the PHU	2015/16 flu season	0.3%
% of refrigerators storing publicly funded vaccines that have received a completed routine annual cold chain inspection	2016	100%
% of school-aged children who have completed immunizations for hepatitis B	2016/17 school year	Monitoring
% of school-aged children who have completed immunizations for HPV	2016/17 school year	Monitoring
% of school-aged children who have completed immunizations for meningococcus	2016/17 school year	Monitoring
% of 7 or 8 year old students in compliance with ISPA	New for 2016/17 school year	Establishing Baseline
% of 16 or 17 year old students in compliance with ISPA	New for 2016/17 school year	Establishing Baseline
% of restaurants with a Certified Food Handler on site at time of routine inspection	New for 2016	Establishing Baseline
% of MMR vaccine wasted [OPH]	New for 2016	Establishing Baseline
% of MMR vaccine wasted [other health care providers]	New for 2016	Establishing Baseline
