REPORT RECOMMENDATION

That the Community and Protective Services Committee recommend that Council approve the proposed amendments to the Smoking and Vaping By-law (No. 2019-241), all in the general form set out in Document 1, and as described in this report.

Roger Chapman, Director, By-law and Regulatory Services in response to a member's question stated that in the past they could leverage existing enforcement mechanisms. They have reduced the number of offending establishments to five, but attendance in those establishments has increased. They haven't engaged with property owners in the past but with change it will help property owners and give By-law Services another enforcement mechanism.

The report recommendation was put to Committee and CARRIED as presented.
