## **BACKGROUND**

*The Agriculture and Rural Affairs Committee at its meeting of February 3, 2022, approved the following motion, which was added to the agenda pursuant to subsection 89(3) of the Procedure By-law:*

WHEREAS the federal ministry of Innovation, Science and Economic Development Canada requires proponents of proposals for new antenna systems to consult with municipalities and the public; and

WHEREAS construction of an antenna system must be completed within three years of the conclusion of consultation after which consultations will no longer be deemed valid by the Ministry except in the case where a proponent secures the agreement of the relevant land-use authority to an extension for a specified time period in writing; and

WHEREAS staff provided the City's concurrence through the Council-approved municipal concurrence and public consultation process for antenna systems for 4118 William McEwen Road on 21 December 2018; and

WHEREAS the three year period has expired, and City's process does not allow staff delegated authority to extend municipal concurrence; and

WHEREAS the 2018 application for 4118 William McEwen Road remains unchanged; and

WHEREAS the proposed antenna is an opportunity to improve service for the hundreds of new homes currently under construction nearby and to people travelling along Highway 416.

THEREFORE BE IT RESOLVED that the municipal concurrence for the proposed antenna system at 4118 William McEwen Road be extended by 24 months, lapsing on 21 December 2023.
