Motion 16/3

Moved by Vice-Chair DeGiovanni

WHEREAS the goals of the Pandemic response are to limit hospitalizations and death and to minimize societal disruption; and

WHEREAS the closure of schools is intended to reinforce the importance of families adhering to the Stay At Home Order to control the growth of variants of concern and to flatten the curve, though we recognize that schools are essential for the well-being and healthy development children and youth; and

WHEREAS rapid growth in the number of people testing positive for COVID-19, hospitalizations, and ICU admissions continue to the point where the health system is challenged to keep up; and

WHEREAS COVID-19 transmission continues to occur in a wide variety of workplaces that provide products other than food, medicine and services essential to health and safety; and

WHEREAS public health experts agree that in order to curb current rates and transmission and lessen the burden on our healthcare sector, all non-essential businesses and workplaces should be closed or limited to virtual or remote operations;

WHEREAS enhanced inspection powers would facilitate enforcement of the regulations at places of business;

WHEREAS additional restrictions, at a level beyond the current provincial measures, have been necessary to control the growth of variants of concern now predominant in Ontario, including the closure of non-essential retail settings;

THEREFORE BE IT RESOLVED THAT the Board of Health for the City of Ottawa Health Unit direct its Chair to write to the Premier of Ontario to request the following:

- That the Premier of Ontario urgently complete a review of all

businesses and services that continue to have workers at the workplace who cannot work from home and implement changes to ensure that only businesses that provide groceries, medications and products or services essential for health and safety are open and only medically-necessary care is provided for the period of the Stay At Home Order and that workers affected are provided with information on income support options;

- **That the school closure language in Ontario Regulation 82/20 be amended to replace "shall not provide in-person teaching or instruction" with "Schools shall be closed to all students except for..." in order to provide greater clarity and ensure continued remote learning and that students are not attending school in person for activities that do not qualify as "in-person teaching or instruction"; and**
- **That improvements be made to the enforcement provisions under the *Reopening Ontario (A Flexible Response to COVID-19) Act 2020* and the *Emergency Management and Civil Protection Act* to enhance enforcement officers' ability to enter, investigate and close businesses.**

CARRIED

That the Medical Officer of Health take all the concerns raised by delegations and through written submissions and share these with the Ottawa Vaccine Sequencing Task Force for their consideration as they undertake the work of sequencing essential workers who cannot work from home, which includes childcare workers, education staff and others, in advance of moving to that phase of the local vaccine rollout.
